IMPORTATIONS OF RAILS GROWING

**CANADIAN COMPANIES
CANNOT MEET DEMAND**

**Large Shipments Coming From
Great Britain and United
States**

Ottawa, Aug. 23.—The inadequacy of the highly-protected steel industry of Canada at Sydney and the Soo to cope with the great demand for steel rails for the construction of Canadian railways is evidenced in somewhat startling fashion by the import figures for steel rails for the first three months of the present fiscal year, commencing April 1. The statistics for the last fiscal year were sufficiently large to demonstrate the inability of the Canadian companies to supply the demand, but judging from the figures of the first three months of the present fiscal year, as compared with those for the corresponding period last year, the importations of steel rails from Great Britain and the United States, under heavy protective tariffs will this year tremendously exceed those of the past fiscal year.

Steel rails are imported into Canada under the general tariff at a duty of seven dollars per ton and under the preferential tariff at a duty of \$4.50. In spite of this duty a total of 45,725 tons has been imported in the three months, with a total value of \$1,187,915.

GRANTED HIS RELEASE.

Montreal, Aug. 23.—Dr. Charles Noble, the eminent Philadelphia physician, who has been confined since June 24 in the Verdun insane asylum, was granted his release yesterday afternoon by Mr. Justice Demers on a writ of habeas corpus. The judge did not dwell at all on the supposed mental condition of the plaintiff but gave his judgment in favor of the release of the petitioner on account of a technical error in the commitment papers in which Dr. Noble had been confined.

BOYS CONFESS THEY KILLED PLAYMATE

**Tell Police of Tragedy After
Finding of Victim's Body
in Underbrush**

Kansas City, Mo., Aug. 23.—Two playmates of four-year-old Joseph Timmerman, whose body was found yesterday buried in the underbrush in a gully in the northeastern part of the city, confessed to killing him. A stone, buried when the youngster attempted to follow them on a trip into the woods, struck the lad in the temple and John Heinberger, both ten years old, after telling many conflicting stories, finally admitted the deed. They said they alone were responsible.

Little Joe was last seen alive Sunday afternoon when he kissed his mother, Mrs. John Timmerman, wife of a railroad engineer, goodbye and told her he was "going to hunt his playmate." Farley and Heinberger say that when they started on the "hunt" they gave the four-year-old child candy in an effort to get him to return home, because they did not want him with them. When the youngster continued to follow, the older boys threw stones at him. One of the missiles struck the boy and he fell. The boys say when they saw the lad was dead they carried him into the underbrush, where he was found to-day.

"We pulled leaves and branches and dirt over him until he was all covered up," John Heinberger sobbed out.

OFFICIAL INVESTIGATION.
Washington, D. C., Aug. 23.—The United States government heard of the killing of James Wood Rogers, the African jungle hunter, in the African jungle months ago, before his death had been publicly announced in London, and had ordered a report from the American consul at Boga, state department officials admitted to-day. Consul Hazelton, the only American office in the country, was instructed to gather all the facts. His report has not been received.

FIVE THROWN FROM AUTO.
Munich, Bavaria, Aug. 23.—Countess Louise Degoutath Birou, the eldest daughter of John G. A. Lehman, United States ambassador to Germany, is confined to the Regatta Palace with a slight brain concussion as the result of an automobile accident near Ingolstadt. Miss Nancy Lehman, the youngest daughter of the ambassador, received slight abrasions. Miss Lehman and her maid and the chauffeur of the machine were not injured. The chauffeur while trying to pass a vehicle was obliged to steer his machine out of the road in order to avoid a collision. The automobile struck a tree and all five occupants were thrown out.

WILL BE DEPORTED

**Suspected Dynamiter Not Permitted
to Land in Jamaica.**

Kingston, Jamaica, Aug. 23.—A man, whose name credit with having been the organizer of the series of explosions at Port au Prince, Hayti, August 13 last, when General Boucotte, president of the republic, perished in the flames which destroyed the presidential palace, arrived here on the German steamer Syria from Hayti. The Jamaican authorities here refused to allow the man to land and he will be returned to Hayti.

VISITING MONTREAL

Governor Baldwin of Connecticut Accompanied Foot Guards to Montreal.

Montreal, Aug. 23.—The Governor of Foot Guards, of New Haven, Conn., one of the oldest and most famous military organizations in the United States, arrived in Montreal yesterday for a social visit. Governor Baldwin and several other distinguished men of Connecticut are with the visitors.

INSTANTLY KILLED.

Toronto, Aug. 23.—Harry Mandorf, a Russian Jew, was killed in a yard at the rear of 46 Berkeley street yesterday by being crushed between a wall and a wasagon. He leaves a widow and four children.

IMPEACHMENT OF CHINA'S PRESIDENT

**PROPOSAL STILL BEFORE
NATIONAL ASSEMBLY**

**Dr. E. G. Morrison Protests
Against Pessimistic Views
Regarding Situation**

Peking, Aug. 23.—The impeachment of President Yuan Shi Kai is still under discussion in the Chinese national assembly. The members, however, are inclined to await the arrival of Dr. Sun Yat Sen, the ex-provisional president. Some of the thousands of Mongolian troops have occupied Tsaoan city, Manchuria, and has begun looting the houses and stores, according to a Chinese report received here. The Mongolians are said to be commanded by a lieutenant of the Kutuktus, or Shabs of Mongolia.

A detachment of Chinese troops from Mukden with a number of Manchurians attacked them during the night of August 20, and fighting was still proceeding on the 21st. The result has not yet been ascertained as many other bands of roving Mongolians are also actively raiding the surrounding country.

Dr. Morrison's Views.

London, Aug. 23.—Dr. E. G. Morrison, whose appointment as advisor to President Yuan Shi Kai was recently announced, who is in London, in a letter to the Times protests against the gloomy and pessimistic views of the English newspapers regarding China.

He regards the execution of several Hangchow generals at Peking as unimportant. He says the men were condemned on unimpeachable evidence, and he scoffs at the idea that Dr. Sun Yat Sen's party could contemplate an appeal to force.

Dr. Morrison said that when he left China on August 6, affairs everywhere were improving, and he gives numerous reasons for his belief in the stability of the Chinese republic.

GRAND FORKS TO BE DIVISIONAL POINT

**Agreement With Canadian
Pacific and Kettle Valley
Companies Ratified**

Grand Forks, Aug. 23.—By a vote of 27 to 5 property owners of Grand Forks yesterday made an agreement whereby the Canadian Pacific and Kettle Valley railway companies are to make the city a joint passenger terminal and division point, and build machine shops and a ten stall roundhouse. An initial appropriation of \$100,000 has been made for immediate construction work. Plans have been completed for a large union depot in the centre of Grand Forks with office for divisional railway officials as well as for the car shops and roundhouse. Work on the new buildings will be started at once in order to be completed before winter sets in.

COLLEGE CLOSES ITS DOORS.

Montreal, Aug. 23.—The St. Marie Monastory College will not be reopened in September, in fact, it goes out of existence. The priests of the college have issued from St. John the following brief note: "Owing to existing circumstances we officially announce to the public that we close our college." It is signed by the priests of the Monastory College and countersigned by the secretary, Rev. M. Desmarais.

HOW CONSUMER IS TAXED IN STATES

**DEMOCRATIC LEADER
ON TARIFF SITUATION**

**Sets Forth Working of Present
System as It Affects
Wage Earner**

Washington, D. C., Aug. 23.—Majority Leader Oscar W. Underwood, reviewing the achievements of the Democratic House in the Congressional Record yesterday, set forth, as he sees it, the situation before American consumers under the present tariff system in this fashion:

"Under the present oppressive tariff law the laboring man returns a night from his toil clad in a woollen suit taxed 75 per cent, shoes taxed 12 per cent, stockings and underwear 71 per cent, and a cotton shirt taxed 50 per cent; a wool hat and woollen gloves taxed 78 per cent. He carries a dinner pail taxed 45 per cent, and greets his wife as she looks through a window pane taxed 26 per cent, with a certain tax of 42 per cent.

"After scraping his shoes on an iron scraper taxed 75 per cent, he wipes them on a mat taxed 50 per cent. He lifts the door latch taxed 45 per cent, steps on a carpet taxed 62 per cent and kisses his wife, clad in a woollen dress taxed 75 per cent. She is mending an umbrella taxed 50 per cent with thread taxed 30 per cent.

"The house is made of brick taxed 25 per cent, and lumber taxed 9 per cent, with paint taxed 25 per cent. Their wallpaper was taxed 25 per cent and plain furniture 35 per cent. He hangs his pail on a steel pin taxed 45 per cent, using soap taxed 20 per cent. His looking glass was taxed 45 per cent, and he combs his hair with a rubber comb taxed 35 per cent. Supper which was cooked on a stove taxed 45 per cent for which his wife used pots and kettles taxed 45 per cent. On the table is common crockery taxed 55 per cent and cheap glass tumblers taxed 45 per cent.

"The sugar he puts in his tea is taxed 24 per cent, which he stirs with a spoon taxed 45 per cent. His meal is a frugal one because the cost of living is high. He uses a knife and fork taxed 50 per cent in eating salt fish taxed 10 per cent, bread 20 per cent, potatoes 22 per cent, salt 23 per cent, butter 24 per cent and rice 62 per cent.

"He proceeds to read a book taxed 25 per cent and at the close of the day reclines in an iron-framed bed taxed 45 per cent, with a mattress taxed 20 per cent, sheets taxed 45 per cent, woolen blankets taxed 75 per cent and a common spread taxed 45 per cent.

"He is taken ill and the doctor prescribes medicine taxed 25 per cent which, being ineffective, he passes from this active sphere of life and his remains are deposited in a coffin taxed 35 per cent, which is conveyed to a cemetery in a wagon taxed 35 per cent, deposited in its resting place in mother earth and the grave filled in by use of a spade taxed 45 per cent, while over his grave is raised a monument taxed 50 per cent."

ROBBER WOUNDED BY HIS OWN REVOLVER

**Weapon Exploded During the
Struggle With Policeman
on the Train**

Topoka, Kas., Aug. 23.—A daring robber who was shot and seriously wounded by his own revolver while resisting capture after he had robbed the mail car on a Union Pacific train last night, was still alive this morning, but the police had not yet learned his identity. Railroad officials hoped soon to induce him to divulge his name. The only clue to the man's identity was a letter in his pocket addressed to Mrs. Willis Lonsberry, Medford, Ore.

Leaping into the mail car attached to the Denver express as it was leaving Kansas City, the robber held up the mail clerks at the point of a revolver. Stuffing his pockets with rich packages, the robber left the mail car at Lawrence, Kas., and hid himself in an upper berth of the Pullman car. He was discovered by the negro porter, who notified Conductor Smith, who hastily summoned two Lawrence policemen. In the scuffle to get him the robber's revolver was turned toward him and exploded, the bullet entering the man's chest close to the heart. A doctor on the train gave the robber temporary treatment and the train proceeded to Topoka. Here the robber, who was unable to talk, was placed in a hospital. Former Mail Clerk.

Topoka, Kas., Aug. 23.—(Later).—The wounded Union Pacific train robber at St. Francis hospital confessed to the authorities that his name is Willis Lonsberry, formerly of Medford, Ore., that he is an ex-railway mail clerk; that he has a wife and two children in Medford.

Medford, Ore., Aug. 23.—Mrs. Willis Lonsberry, wife of a rancher, near

ONE OF WINDING GUNMEN LOCATED

**DETECTIVES SENT TO
ARREST "LEFTY LOUIE"**

**District Attorney Expects Offer
of Confession From a
Man "Higher Up"**

New York, Aug. 23.—Louis Heinzwig, alias "Lefty Louie," has been located in the suburbs of a southwestern city near the Rocky Mountains, and two detectives of the district-attorney's staff have been sent to arrest the much-wanted gunman in the Rosenblatt murder case. The authorities did not mention the name of the place.

The blackmail phase of the Rosenblatt murder case is now being probed by District Attorney Whitman, who has let it become known that he had obtained evidence implicating a police inspector and a civilian in grafting. While Mr. Whitman will not commit himself, it is known that he expects an offer of complete confession from a man "higher up" in political circles, whose story will lay bare the graft system, and whose narration will involve many others who have profited by blackmail on gambling and disorderly houses.

A sealed indictment charging perjury was handed up to the grand jury yesterday against Charles Steinhart and Jesse White, members of Lieut. Becker's "strong-arm" squad. They are charged with "framing" a gun-carrying case against the gang leader, "Big Jack" Seelig.

Burns Goes to New York.
Denver, Colo., Aug. 23.—Detective William J. Burns, entirely recovered from an attack of mild ptomaine poisoning, is on his way to New York, presumably to participate in the police investigation in that city. He left this city yesterday.

May Be in Colorado.
Chicago, Aug. 23.—William J. Burns, the detective, before leaving for New York to-day refused to confirm the report that Louis Rosenauwe, alias "Lefty Louie," had been arrested. Burns admitted, however, that his son, Raymond J. Burns, was in the vicinity of Salida, Colo., working on the case.

New York, Aug. 23.—Louis Rosenauwe alias "Lefty Louie," has been located in the suburbs of a southwestern city near the Rocky Mountains.

C. N. R. SEEKING ENTRY TO CHICAGO

**Company May Secure Running
Rights Over Chicago and
Northwestern**

Winnipeg, Aug. 23.—General Manager MacLeod, of the Canadian Northern railway, has left for Chicago to arrange running rights over one or other of the seven routes connecting Duluth with Chicago with a view to an entry of his company into Chicago through trains from Winnipeg and the Canadian prairie west. The Canadian Northern is practically already at Duluth, the new bridge connecting Fort Francis, Ont., and International Falls, Minnesota, being completed and the missing link between Virginia and Duluth is now ready for traffic. It is understood that the Canadian Northern may get running rights over the Chicago & Northwestern, which has an air line between Duluth and Chicago. Failing this, running rights might be secured over the Great Northern via St. Paul.

WILL TOUR CANADA.

London, Aug. 23.—Rev. Robert Hensley Henson, Canon of Westminster Abbey and rector of St. Margaret's, called for Montreal to-day to begin a three-months' trip through Canada and the United States. After preaching in Montreal, Winnipeg and several other Canadian cities, he will be heard in lectures at Yale, Harvard, Cornell, Columbia, the University of Pennsylvania and the Union Theological Seminary.

ALLEGED STEAMSHIP COMBINE.

New York, Aug. 23.—Charles E. Pickett, of New Haven, clerk of the United States court, who is the master in the inquiry into an alleged steamship combination, called for England yesterday to take the testimony of J. Bruce Imray, head of the International Mercantile Marine Company, on the question of steamship rates. Two lawyers representing the United States government accompany Mr. Pickett.

TWO AMERICANS MURDERED.

Washington, D. C., Aug. 23.—Two Americans are reported to have been deliberately murdered during the massacre of the Nicaraguan loyal troops by the rebels at Leon on August 19.

One was said to be Harvey Dodd, of Kenton, Miss. The other, a man named Phillips. The two men had been wounded and were seeking refuge in a hospital, according to the report received at the state department.

WIFE OF MARIENBAD.

Marienburg, Bohemia, Aug. 23.—A number of English suffragettes yesterday went to the hotel where David Lloyd George, the British chancellor of the exchequer, is staying, and struck off his name from the visitors' board. Afterwards the suffragettes waited for him in the street, shouting "Votes for Women."

MUTINEERS SENTENCED.

Fifteen Russian Soldiers Will Be Executed—206 Sent to Prison.
Tashkent, Asiatic Russia, Aug. 23.—Two hundred and twenty-eight Russian non-commissioned officers and soldiers were tried by court-martial in the sappers' camp here yesterday on the charge of mutiny. Fifteen of them were sentenced to be hanged, seven acquitted and 206 sent to jail for varying terms.

JAPAN'S GIFT TO U. S.

San Francisco, Cal., Aug. 23.—Japan's building at the Panama-Pacific exposition will cost \$1,000,000, will occupy four acres with its grounds, and will be a permanent gift to the people of the United States, it was learned here to-day.

MORE COLONISTS FOR ALBERTA

**BROUGHT OUT BY
DUKE OF SUTHERLAND**

**Two Hundred Farmers Arrive
at Winnipeg on Way
to Brooks**

Winnipeg, Aug. 23.—The Duke of Sutherland, who has visited Western Canada on a number of occasions in recent years, arrived in Winnipeg last night, and left for Alberta to-day. On the present trip through the West, His Grace is accompanied by the Duchess, who for many years has been very active in philanthropic work in the Old Country, and by their son and daughter.

From Winnipeg the Duke goes to Edmonton, where he will again inspect the large areas of farm lands which were recently acquired. Later the party will go to Brooks, Alberta, where some time will be spent on the duke's estate there. Lady Rosemary Leveson-Gower, daughter of the duke and duchess, will without doubt attract much attention during the present visit of the family to the West. Many romantic stories are told of her, one being to the effect that she might marry Prince Arthur of Connaught, son of the governor-general of Canada.

For the past eighteen months, the duke has been working on a broad scheme, which involves the bringing out of a large number of Old Country farmers, and placing them on the lands which he has secured. A party of 300 of the first of these arrived in Winnipeg to-day. Those who are brought out find themselves placed on farms which have buildings on them and a crop already in the ground. They are given every opportunity of acquiring full knowledge of the farming conditions in this country, and if they wish to take up their permanent residence there can purchase the property on reasonable terms. Already several families have come out and are doing well.

TRIBUTE TO LATE GENERAL BOOTH

**Memorial Services to Be Held
Throughout United States
on September 12**

New York, Aug. 23.—At the stroke of noon next Thursday the wheels of all industries of the Salvation Army in America will be stopped in memory of General William Booth, whose funeral takes place at a corresponding hour in London. For four hours every member of the Salvation Army in this country will drop his task and engage in prayer. Orders to that effect have been sent out from the army headquarters here.

Arrangements have been completed for memorial services to be held simultaneously in every city and important town in the United States at 3 p. m., Saturday, September 12. One programme has been made for all the eight military ports in the United States, and the various commanders have been requested to invite city and state officials, ministers of all denominations and Christians generally to take part in the country-wide memorial.

INFANT MURDERED.

Nelson, Aug. 23.—The body of a nude male baby was found on Wednesday on the shore of the west arm of Kootenay lake, opposite Nelson. It was newly-born, and had apparently been thrown from a launch. Provincial police are investigating. A murder charge may result.

MINER CRUSHED TO DEATH.

Coleman, Alta., Aug. 23.—A Slavonian named Steve Roboluk was killed in the West-Canada Collieries' mines at Blairmore while working in the mines. The roof caved in and one man was smothered before he could be extricated. His leave a wife and child.

STANDARD OIL AIDED ROOSEVELT

**CONTRIBUTED TO THE
REPUBLICAN WAR CHEST**

**J. D. Archbold Says Attacks
Followed Refusal to Make
Second Grant**

Washington, D. C., Aug. 23.—John D. Archbold to-day told the senate committee that the Standard Oil \$125,000 contribution to the Republican war chest of 1904, was made upon assurance from Cornelius N. Bliss that "the contribution was acceptable to Col. Roosevelt, and that further contributions would be acceptable."

He said that later Mr. Bliss asked him for another contribution about \$150,000 and upon the Standard board's refusal to make it, he said, "I think you had better make this contribution."

Mr. Archbold said, "outrageous attacks" by the government had dated from the board's refusal. In answer to a question by Senator Penrose, Mr. Archbold declared there had never been made to him a suggestion that the \$100,000 contribution to the national fund be returned by the Republican campaign committee. Mr. Archbold said that \$25,000 given to Mr. Penrose, "was a political contribution, and not a payment for services in public or private life."

The committee considered the advisability of inviting Col. Roosevelt to testify. William Rockefeller will be recalled later, and Mr. Cortelyou will be recalled.

Senator Penrose was a witness before the Clapp committee this afternoon. He introduced into the records the statement regarding the \$25,000 contribution to the Pennsylvania campaign fund of 1904 by John D. Archbold and the contribution of \$100,000 to the national campaign fund, which he made in the senate. He said he had practically nothing to add to that testimony that would answer any other questions.

ALLEGED VIOLATION OF ANTI-TRUST LAW

**Rumor That U. S. Government
Will Prosecute American
Bell Telephone Co.**

Chicago, Aug. 23.—Prosecution of the American Bell Telephone Company by the federal government under the Sherman anti-trust law, was rumored in Chicago to-day. It was said that the allegation would be that the monopoly has been created in violation of that law. Local federal officials refused to confirm the report. Those high in the official life of the Bell Company were equally reticent.

It was said that a civil suit for dissolution of the so-called telephone trust was under contemplation and will be ordered in the near future by Attorney-General Wickereham. It is said that by secret manoeuvring the telephone organization has endeavored to acquire control of the stock in every independent company in the country of any consequence. The W. U. Telegraph Co., which is controlled by the Bell Company, and many other subsidiaries will be attacked by the government in a general bill, in the event the reported prosecution is begun.

BURNS PROVE FATAL.

**Woman Dies in Rags, But Owned Silk
Gowns and Rich Oriental
Garments.**

St. Louis, Mo., Aug. 23.—Dr. Sarah F. Wells, formerly a professor in the New York medical college and hospital for women, and later organizer and president of the women's medical college and hospital, in San Francisco, is dead. She died in rags, from burns received in a public bathing house, although in the queer little apothecary shop of which she was proprietor, were found trunks containing silk gowns and rich oriental garments, estimated to be worth \$5,000.

MUST ERECT NEW STATION.

Ottawa, Aug. 23.—At a meeting of the railway board yesterday morning a definite order was given to the Grand Trunk railway to proceed with the erection of a new station at Toronto. D'Arcy Scott, assistant chairman of the commission, told Mayor Geary who was present, that the board had said its last word in this matter and that it was now the duty of the municipal authorities to see that the board's order is carried out. The location of the C. N. R. line through North Bay was approved by the board.

TRANSFERRED TO WINNIPEG.

Winnipeg, Aug. 23.—Blair Robertson, manager of the Bank of Nova Scotia at Hamilton, Ont., has been appointed manager at Winnipeg.

MESSAGE FROM QUEEN ALEXANDRA

Extends Sympathy to Son of Late General Booth—Memorial Services

London, Aug. 23.—General Booth's body was removed last night from his late residence at Hildley Wood to Cross Green Hall, Clapton, in the northeast of London, where it will lie in state until Saturday. The plans for the lying-in-state are the same as those carried out when the body of his wife, the "Army's mother," laid in state. The coffin lies on the same spot, over which a huge canopy hangs. At the side of the coffin an oil portrait of his wife is displayed. Flags of all nations adorn all the walls, representative of the Salvation Army operations.

In connection with the funeral, there is under consideration a suggestion that the coffin be conveyed to Abney Park cemetery on a gun carriage as symbolizing the militant character of the great evangelist's work.

Queen Mother Alexandra yesterday telegraphed to Brewell Booth, the son and successor of General Booth, the following message:

"I beg you and all your family to accept my deepest and most heartfelt sympathy in the irreparable loss you and the nation have suffered in the death of your great, good and never-to-be-forgotten father. It is a loss which will be felt throughout the whole civilized world, but thank God, his work will live forever.

(Signed) "ALEXANDRA"

Messages of condolence also have been received from King Christian of Denmark, General Louis Botha, Premier of the Union of South Africa; Lord Islington, the governor of New Zealand; Lord Rosebery and many other prominent personages.

In a message to the Salvationists throughout the world, published in the Daily Chronicle yesterday, General Bramwell Booth, the new commander-in-chief of the Salvation Army, indicates the direction of the army's coming activities. The new general says:

"The army's reorganization and achievements are the outcome of God's spirit. That spirit cannot die. It still vivifies us. Yet though the spirit does not change, the forms and methods in which it is clothed must change. New methods must be employed and new channels of activity opened to keep pace with human advancement."

Asked whether the army still would be governed on military lines, the general replied that it would, because military discipline gives a tremendous cohesion of simplicity and power.

Referring to the world-wide influence of the army, the general believes that a large part of the work is

still among the lowest strata of society, and he has great hopes of winning a way among the working classes.

Memorial Services.
Toronto, Aug. 23.—The Salvation Army in Toronto has completed its arrangements for the funeral services in memory of the late General Booth. A request is being made to the ministers in all churches in the Dominion to refer to the work and life of the departed general at services on Sunday, August 25. On Wednesday evening, August 28, the funeral service will be held throughout the Dominion by each corps.

In Toronto there will be a united mass funeral service, at the Massey hall on that evening at 8 p. m., leaving representatives being present. This service will be conducted by Commissioner Rees and Colonel Mapp. Following upon the general service the masses bands of the army will march to the city hall, where they will play "Near My God to Thee" and other well known hymns, on the steps of the civic building.

On Thursday, August 29, at noon, a solemn hour of prayer will take place at all Salvation Army places throughout the Dominion. This hour will be according to English time as near as possible the hour when the burial services of the departed general will be taking place at Abney Park cemetery.

On Sunday, September 1, the official memorial service for the departed general will take place at all Salvation Army places throughout the Dominion.

MILITARY SYSTEM IN AUSTRALIA

Ministers Deny Compulsory Training is Unpopular—Drills Well Attended

London, Aug. 23.—That the system of compulsory training for the youth of Australia is most unpopular, and that it threatens to break down with its own weight, is the opinion of the Chronicle.

Continuing its statement, the paper fears that the universal service scheme will have a mischievous effect upon technical education, and implies that it should therefore be abolished.

Minister's Reply.
Melbourne, Aug. 23.—Emphatic denial to the London newspaper's assertion that the Commonwealth's military system was unpopular and that it would have an ill effect on technical education, was made by a prominent member of the federal cabinet.

Answering the charges made by the Daily Chronicle, the minister stated that while there is a small disturbing element present among the lads serving under the compulsory system, nevertheless the majority of the cadets are orderly. Apart from the few dissenters, the system is working splendidly.

Continuing his answer, the minister of the cabinet stated that the government had been forced to make an example of a few of the boys in the police courts with the result that excellent attendance at drills and parades was immediately forthcoming.

Questioned as to his opinion of the working of the cadet system, Senator Pearce, minister of defense, stated that he is well pleased with the working of the scheme and asserted that within a few years Australia would have a citizen army second to none in the world.

GRAND CIRCUIT RACES.
Salem, N. H., Aug. 23.—Some of the fastest horses from the half-mile tracks broke in to the grand circuit at the Rockingham fair to-day. There were four purses, each for \$1,000, for winners. Silver Heels, Lady Girl and Lady Jane Eats were some of the well-known pacers in the 2 1/2 class. Sixteen horses were entered in the 2 1/2 trot, including Baron Forest, Jack Ringen and May Cliffe, the latter from Plattsburg, N. Y.

Ed. Geers and Walter Cox were due for another brush to-day, Geers having entered Early Thacker and Cox entering Forest Prince in the 2:00 pace. For the 2:15 trot Marigold is entered by Thomas W. Murphy, of Poughkeepsie, N. Y.; Eva Cord, entered by Geers, of Memphis, Tenn.; Mary G. and Arona McKinley, entered by Walter Cox, of Dover, N. H.; and Victor Star, entered by C. A. Valentine, of Columbus, O.

MAURICE M'LOUGHLIN PLAYS AT NEWPORT TO-DAY
Newport, R. I., Aug. 23.—Of the four matches on the card to-day for the all-corners tournament in the national lawn tennis championships in singles that between R. Norris Williams, of Philadelphia, and Maurice E. McLaughlin, of San Francisco, commanded greatest attention. The other contests were between B. C. Clothier, of Philadelphia, and Raymond D. Little, of New York; George D. Church, of New York, and Karl H. Behr, of New York; and Wallace E. Johnson, of Philadelphia, and William Washburn, of New York.

HAS NARROW ESCAPE.
San Francisco, Cal., Aug. 23.—Joseph A. Chanalor, millionaire oil operator, and employer of E. W. Mason, whose wife was killed when their automobile overturned Monday, had a miraculous escape from death Wednesday while speeding in his own car to see Mason in a Marin county hospital. Chanalor met a farmer driving a heavy team on a mountain road and got out to hold the horses while his chauffeur drove the car past. The charging machine frightened the horse and they plunged over the bank, taking Chanalor and the wagon with them. When the wagon reached the bottom of the hill Chanalor was beneath it and his rescuers expected to find him dead. Examination at a hospital to which he was taken showed, however, that he was suffering only from cuts and bruises.

CAPTAIN LORD DEFENDS CONDUCT

Declares Criticism of Himself Undeserved and Unjust—Issues Statement

Liverpool, Aug. 23.—W. Stanley Lord, who was captain of the Leyland-Line steamer Californian at the time of the disaster to the Titanic, by which 1,517 lives were lost, has issued a statement defending his conduct. He declared that if the Californian had been the steamer sighted from the Titanic she would also have been sighted from the Cunard liner Carpathia.

Captain Lord states the stigma cast on his character and seamanship is undeserved and unjust. The evidence, he says, is conclusive that none of the responsible officers of the Californian was aware there had been a serious calamity. The second officer was the only one who saw signals, so Lord declares himself justified in relying on his officers' judgment that the steamer was sighted between 1 and 2 o'clock in the morning, whereas the Titanic did not move after midnight. Capt. Lord says he has no recollection of what occurred after midnight, his officers deeming the occurrences too unimportant to communicate to him.

That any seaman should willfully neglect distress signals is preposterous and unthinkable, in the opinion of Captain Lord, who says the lack of a reply to the Morse signals from the Californian convinced the officers of that vessel of the unimportance of the distress rockets, while the fact that the vessel reported was steaming away was a further justification.

WORK ON QUEBEC BRIDGE.

Quebec, Aug. 23.—Work on the sinking of the caisson for the new Quebec bridge is now in active operation and work is proceeding with day and night gangs. Messrs. M. P. and J. T. Davis are carrying on the work which will provide for the building of the main pier for the structure. The caisson, which measures 90 by 150 feet and is 40 feet in height, has already reached a depth of 37 feet underneath the river bed, and the work is making rapid progress. The number of men employed at the sinking of the caisson at the present time is 700. Out of this number there are more than 300 men, commonly known as "sand hogs," employed at excavation work inside the huge box.

WILL SPEAK ON HOME RULE.

Montreal, Aug. 23.—The Rt. Hon. W. H. Long, chief secretary for Ireland, his wife and Major Morrison Bell, who is acting private secretary, will leave here Saturday evening for Toronto, the first stop on their tour through the west.

Mr. Long had started from home with the intention of making his visit a private one, as he was desirous of studying Canadian affairs generally, but it was explained that he had received a number of invitations to make speeches on the question of Home Rule for Ireland and it is expected a number of discourses will be delivered during his visit to the Canadian west.

The party expects to return to Ottawa early in October.

TO PURCHASE PULP LIMIT.

Toronto, Aug. 23.—Messrs. Shirley Ogilvie and F. Hanson, of Montreal, are the successful tenderers for the Abitibi pulp limit offered by the Ontario government. The amount of the bonus to be paid by the government is \$5,000 per year for 21 years, making \$105,000 from this source. In addition, spruce pulp wood cut on the limit will be subject to the usual tax of forty cents a cord, and other woods at 20 cents a cord. There will be other timber dues and water power rentals. The company must build a half million dollar pulp mill immediately and a paper mill.

LIMIT LENGTH OF HATPINS.

San Francisco, Cal., Aug. 23.—Hereafter it will be unlawful for any woman of San Francisco to jab more than one inch of hatpin into the casual and unarmed man. An ordinance limiting the protrusion of any hatpin to that length is before the board of supervisors. An inch and a quarter was the length suggested by the board of health, but the public welfare committee of the supervisors, in reporting the ordinance favorably, lopped off the quarter.

PREMIER BORDEN ENTERTAINED

London, Aug. 23.—Sir Philip Watts entertained Premier Borden at dinner Wednesday night, the guests including Admiral Moore, Gen. Bethune, Sir P. Girouard, Sir W. C. Croze, secretary to the Admiralty, and W. Eustace D'Incourt, director of naval construction.

TRIES TO END LIFE.
Prisoner Makes Five Attempts at Suicide in Tacoma Jail.
Tacoma, Wash., Aug. 23.—Five attempts at suicide within an hour was the record established by Emil Olson, a one-legged shoemaker, at the city jail Wednesday. Olson was arrested at the Northern Pacific hospital, where he had applied for medical treatment and he had tried to swing his heavy crutch at a doctor's head. When brought to the city jail by three policemen, who were required to hold him all the way to the station, Olson was still recklessly inclined. He had not been left in the receiving cell ten minutes before the other inmates called Jailer Stratton's attention to the fact that Olson was trying to hang himself. After the prisoner had attempted the attempt four times, using various articles of clothing, including his suspenders, the police stripped him to the skin and placed a guard over him.

SENATOR SCORES ROOSEVELT LEADER

Declares Pennsylvania Manager Sought to Buy Seat in Senate

Washington, D. C., Aug. 23.—In a careful, deliberate speech in the senate, Senator Penrose, of Pennsylvania, replied to the charges made regarding a certificate of deposit for \$25,000 sent that sum from Mr. Archbold but said Standard Oil Company, in 1904.

Senator Penrose admitted receiving that sum from Mr. Archbold but said it was part of a contribution of \$125,000 made by Archbold to the Republican national campaign fund, \$100,000 of which amount, he said, went to the Republican national committee and \$25,000 to himself for use in Pennsylvania.

"President Roosevelt had been advised of the contribution," Senator Penrose declared. He said that later Cornelius N. Bliss, then treasurer of the national committee, asked for another contribution of \$150,000 from Archbold and his assistants "interested in the Standard Oil Company."

"The demand was urgent, insistent—I may say imperative, and it was reported it came direct from President Roosevelt," declared Senator Penrose, forcefully.

William Flinn, Roosevelt leader in Pennsylvania, was scored by Penrose. The senator charged that in 1904 Flinn offered him and Israel W. Durban \$1,000,000 or \$2,000,000 if they would favor his candidacy to succeed Senator Quay. Senator Penrose read what purported to be copies of telegrams to show that Flinn asked John D. Archbold to assist him in securing the election.

At the conclusion of his speech the senator promised further disclosures. Penrose had read by the clerk a newspaper interview with Roosevelt in which the latter was quoted as saying that Penrose had nothing to do with the presidential campaign of 1904. The senator said he was a member of the national committee, chairman of Pennsylvania state committee and conducted the campaign in Pennsylvania.

"Mr. President, is this gratitude, mendacity or political aphasia?" he demanded.

A ripple of laughter greeted this question and Penrose settled into his seat.

Senator Bacon asked to whom the \$2,000,000 was to be paid by the "citizen" who wanted to be elected to the senate?

"I suppose either to Mr. Durban or myself," responded Mr. Penrose. "We did not get that far in the consideration of the business."

Senator Culberson, of Texas, seeking a physiological opportunity, called up his bill forbidding campaign contributions by corporations and limiting the amount to be contributed by individuals to \$5,000.

A filibuster developed against the measure and after 38 senators had forced a half dozen roll calls, the senate was forced to adjourn.

In his speech, Senator Penrose said: "Certain letters from John D. Archbold, addressed to me, have recently been published and an effort has been made to establish a connection between the work of the industrial commission, of which I was a member, and an alleged letter purporting to enclose \$25,000 from John D. Archbold."

"Their publication now, with the malignant insinuations accompanying them, is in the nature of political blackmail, the purpose of which is to punish, coerce, or intimidate me because of my political course. The statement that there is any connection between the industrial commission and a certain cheque from John D. Archbold is false, malicious and without justification."

MEXICAN CUSTOMS RECEIPTS DECREASE

Loss of Revenue Due to Occupation of Ports of Entry by Rebels

Mexico City, Aug. 23.—Customs receipts for the fiscal year that ended July 31, 1912, show a decrease of \$2,000,000, compared with last year. An estimate of probable receipts of the coming year made on existing conditions indicated a further decline of \$1,500,000. Loss to the government through the occupation of Juarez by the rebels was estimated at \$200,000. Railway Traffic Resumed.

Juarez, Aug. 23.—Traffic was resumed yesterday over the Mexican Northwestern railway and on the American-Canadian Mexican road for the first time since the outbreak of the Orozco revolution. Trains will run over the entire line from Juarez to Chihuahua city. This will bring relief to the lumber plants at Madero and to mining properties along the route. It has been orderly in Juarez since the federal occupation.

U. S. OFFICIALS PREDICT RATE WAR

Suez Canal Tolls Will Be Reduced—Regarded as Retaliatory Move

Washington, D. C., Aug. 23.—A rate war which might involve all the maritime nations in the world and which would revolve about the Suez and Panama canals, was predicted yesterday in Washington by officials who have watched the development of world interest in the Panama canal bill now awaiting approval of President Taft. According to the report that reached the state department yesterday the directorate of the Suez canal has decided to reduce rates through the canal.

In official circles this notice was regarded as the first retaliatory step against the free tolls provision for American ships through the Panama canal. The announcement of the proposed reductions through the Suez appeared in inconspicuous notices in American newspapers. The notice was to the effect that after the first of next year the transit dues in the Suez canal will be reduced fifty centimes, bringing the toll for loaded ships down to 4.23 francs. This is the precise equivalent to the \$1.25 maximum toll which the Panama canal act prescribed for vessels passing through that waterway.

Prof. Emory R. Johnson, whose exhaustive investigation on the financial aspect of the Panama canal, as a special commissioner, formed the basis for the action of the congressional committee in fixing the toll rates on the canal, held that if the Panama project was to be a success financially and commercially, its tolls should be lower than those of the Suez canal. This was on the basis that the Panama route would secure at least a minor share of the shipping between Europe and the Pacific ports of Asia. Even lower tolls at Panama, he said, would not draw away from the Suez canal a large part of the Oriental trade, because of traffic opportunities in coal and other supplies which have a determining effect upon the selection of routes.

LETHBRIDGE INQUIRY. Judge Winter Investigating Charges Against Chief of Police.

Lethbridge, Alta., Aug. 23.—The first day's proceedings of the judicial investigation into the charges against Chief of Police Gillespie, of this city, before Judge Winter was taken up largely with the evidence of Police Court Stenographer M. S. Bryan. Bryan, examined by City Council Ball, gave evidence respecting certain moneys and fines which had in some unaccountable manner been omitted from the police court book and with respect to certain erasures in the charge sheets of the police court. Cross-examined by Mr. Eaton, of Calgary, who is appearing for Gillespie, witness could not explain why certain entries had been omitted from the book of which he had charge. Re-examined by Mr. Ball, Bryan said he had seen Gillespie interfering with the combination of the vault in the police station since he has been deposed. Several witnesses testified to having paid Chief Gillespie money for licenses of which there appears to be no record. There is a great deal of interest being manifested in this district and throughout the province. Developments are expected which rumor suggests will implicate certain aldermen. Three hundred theatres are burned yearly in the United States; 600 churches, 500 schools, 1,400 hotels, 2,200 flat houses, and 38,000 dwellings.

PATRIOTS AND THE NAVY.

The Colonist thinks that because Sir Wilfrid Laurier is a member of the Imperial Privy Council he is in duty bound to give Rt. Hon. R. L. Borden the benefit of his counsel in the matter of a Canadian navy.

Now the Times is not authorized to speak for Sir Wilfrid Laurier, but it has the utmost confidence in making the statement that if the Rt. Hon. the leader of the opposition is called upon to tender counsel to His Majesty, it will be in the guise of First Minister of the Crown.

There was time when the naval question might properly have been "taken out of politics." In fact, by resolution of the House of Commons it was taken out of politics. To this resolution the present Prime Minister was a consenting and an active party.

HEADSMEN AT WORK.

The carnival of slaughter among federal departmental employees has run its riot in the east and is now beginning in the west. W. C. Cowell, a Dominion lands agent who was called to the coast by Mr. Maber to assist in straightening out something the department thought might be managed to better advantage, last week received from Ottawa his notice of dismissal.

Not less discreditable in the chase after spoils is the dismissal of Postmaster B. Brynaldsen of Bella Coala, news of which reaches this office today.

that is in it but simply to serve the community in which he lives. Many a long weary day Mr. Brynaldsen has tramped the road to the wharf to meet steamers in storms at all hours of day or night in order that the people at Bella Coala might not miss the last mail.

A FLAG INCIDENT.

The "flag" is always a timely and popular subject of adoration and occasionally a subject of animadversion. In nothing so much as in little things do big men and big nations show their eccentricities and foibles. The brain-storm incident to the flag-waving campaign of last autumn has not wholly subsided, and here and there, now and then, an individual shows that he has not fully recovered from the stroke by an outbreak of eccentric conduct which, by reason of its triviality, becomes international in its importance.

"It would be unfair to the people of Canada to say that all, or even a majority, are narrow and hostile toward us. But there is a very material percentage of them that are and they overlook no opportunity to manifest their feelings and to make it unpleasant for Americans among them.

"The circus incident at Saskatoon simply illustrates what those who go from this side may expect. This is telling the American people that Canadians, or at least a very material percentage of them, are a low-down, boorish and altogether unlovable people and that Americans are altogether too good and noble to move into their country and live among them.

"The circus incident at Saskatoon simply illustrates what those who go from this side may expect. This is telling the American people that Canadians, or at least a very material percentage of them, are a low-down, boorish and altogether unlovable people and that Americans are altogether too good and noble to move into their country and live among them.

It is quite true that it "would be unfair to the people of Canada to say that all, or even a majority, are hostile to Americans. While it must be admitted that the leader of the political party now in power declared that "we must have no truck or trade with the Yankees," this is now understood to have been only a political euphemism; one of those expressions which sounds broad and generous and fraternal and vacuous, but is not meant to be taken seriously at any other than election times.

market on the level just across the border-line. And when a few more of the provinces have an opportunity to declare themselves on the same issue they will declare in the same manner.

When all this is said there still remains to be said that the American people as a whole do not, in their commercial relations with the people of Canada, manifest those finer feelings which well-bred people exhibit. A well-bred circus manager, for instance, would keep two sets of flags, one for the United States and another for Canada.

"It would be unfair to the people of Canada to say that all, or even a majority, are narrow and hostile toward us. But there is a very material percentage of them that are and they overlook no opportunity to manifest their feelings and to make it unpleasant for Americans among them.

LOCAL NEWS

Pandora Avenue Extension.—The triangular property at the intersection of Oak Bay avenue and Fort street is being gradually cleared, and levelled now to the grade of the adjacent streets.

New Official.—The forestry branch of the provincial government has secured the services of Victor Gilbert, formerly connected with the federal service. Mr. Gilbert is a graduate of Queen's, Kingston.

Y. M. C. A. Swimmers to Meet.—All members of the Y. M. C. A. Swimming and Life-Saving Club are requested to meet in the Y. M. C. A. on Thursday evening next at 7:30 o'clock.

Condemnation Proceedings.—In order to legalize the condemnation proceedings of 55 buildings recently ordered for destruction, a formal notice will be posted for passage at Monday night's meeting of the council.

Must Have 16-Pound Weight.—Although Fredrick Finter, a painter, had the brake of his wagon against the wheel of his rig he was compelled to plead guilty to a charge of leaving his horse unsecured on the public street as this evening requires that all horses shall be secured to a weight not less than 16 pounds. He was fined \$5.

New Hospital Subscriptions.—Although most of the contributions to the new Jubilee hospital building fund have been received, there remains a number of outstanding notes, which, through oversight have not been turned in. The committee hopes that these will be attended to without delay in order that the work, so enthusiastically begun, may be continued with a clear slate.

Enjoyable Dance.—The Western Star Amateur Dramatic Society entertained their many friends at an invitation dance in Semple's hall, Langford street, last night. A very enjoyable evening was spent by all present. Dancing started at 9 o'clock and lasted until past midnight. Supper was served at 11 o'clock. The supper tables were decorated in pale blue and gold, the colors of the society. Much praise must be given the various committees for the way in which everything was so successfully carried out.

Stag Cricket Dinner.—The great cricket dinner will be held this evening in the Empress hotel with Col. Peters presiding. Already 150 tickets are out and the function promises to be extremely popular. Premier Sir Richard McBride, W. H. Hayward, M. P. P., Hon. D. M. Eberts, M. P. P., and many other notable men will be present. Dinner tickets can be secured at the cricket headquarters, Messrs. Stuart and Ross, or at the Empress hotel. The committee arranging the function is composed of Hon. E. Dewdney, C. C. Tunnard, and Crawford Coates.

Prominent Parliamentarian Here.—Mr. Agas Robertes, the Liberal member for Cornwall, England in the House of Commons, is at present in the city, and is now busily occupied in salmon trolling in the vicinity. It will be remembered that Mr. Robertes was the man who introduced the famous amendment to the Home Rule bill to exclude Ulster from the provisions of the Home Rule bill. Needless to say the amendment was defeated, and it says much for the courage of the young M. P. that he had the temerity to introduce such an amendment in the face of the wishes of his own party.

Italian Finance.—A prosecution arising out of the shooting for which an Italian named Simone is serving two and one-half years in the penitentiary, was commenced this morning in the police court where Frank Manis, an Italian, was charged with receiving the same for E. C. Lowe, solicitor, which he had not paid over. The money was collected among friends of Simone for the purpose of taking an appeal against the sentence, the men who gave the money this morning saying they gave it on the guarantee by Manis that Simone's sentence would be reduced to six months. The sum of \$75 was collected by Frank Poole, and he gave Manis \$50 to pay

Lubricate your system with Vittucci's Virgin Olive Oil

Men's Suits That Bear The Hall Mark of Quality

AND THE PRICES ARE ONLY \$20, \$22.50 AND \$25.00

UT the quality of the garments are such that few men would believe could be produced for the price unless he actually sees them for himself. It was generally considered that the very best quality of tailoring was produced by the custom tailor and that it was an impossibility to buy a really well fitting suit with a touch of individuality about it unless you had it made to your measure and paid at least \$30 to \$35, but this isn't the case today.

Here are suits that have been made under these conditions and that is why we are able to offer you clothes that measure well up to the standard of the very highest class of custom tailoring at a price that is well within the reach of the average man.

Perhaps You'll Be Interested in New Coatings

WHY not call in and see these lines? We shall be pleased to show them to you and that will prove very much more satisfactory than attempting to describe their qualities in these columns.

Three Special Values in Men's Underwear For Saturday

VALUES that should bring a crowd of men to this department as soon as the doors open. All are seasonable garments, are well known brands, and as all sizes are to be had, there is no reason why you shouldn't benefit by the special pricing.

You Can't Judge the Quality of Spencer's Linens Merely By Their Price

BECAUSE they are bought direct from the manufacturers in such large quantities that we secure the lowest possible prices, and as a result we don't ask our customers to pay the profits of the wholesaler or jobber.

It is this direct manner of transacting business, together with the fact that the organization of a department store cuts down the rent and other selling expenses of each individual department to a point that makes it possible to transact business at a smaller rate of profit than is possible in the average specialty store.

Some of the Popular Hits at Sheet Music Dept.

DAVID SPENCER, LIMITED

greatest activity and enthusiasm in all the branches they have visited. They report that their tour has been a great success, and expect to organize twenty-five branches before their journey is completed. Dr. Ryan is one of the leading citizens of Kingston, having been mayor there for several terms, and is at present president of the board of trade. It is the intention to appoint a permanent organizer for British Columbia.

GET IT AT BOWES' AND BE SAFE

It's the Spirit

As well as the letter of the Prescription that we follow. We put skill, care, experience, purity and many other essentials into our work which are not actually written on the paper. You'll reap the benefit the Doctor intended if you send the prescription to Bowes.

We Have Cut—They Will Cut.—Sounds like a grammar lesson, but it isn't it is merely a chance to lessen your expenditure on a new lawn mower. Regular \$7.75 machines for \$6.50; regular \$7.90 machines for \$6.50; regular \$4.50. R. A. Brown & Co., 1302 Douglas Street.

Will the gentleman who so kindly assisted the lady who fell from the street car on Yates street, Tuesday night, communicate with Miss Grimmes at the Victoria Private Hospital, corner Vancouver and Rockland avenue. Phone 3245.

Arbitration Claim.—In settlement of the claim of J. McNair Jones for \$5,250 compensation in connection with the expropriation of seventeen feet from his property on Hillside avenue, required for widening purposes, the arbitrators have fixed on a sum of \$3,027.50, the city's figure being \$671.

Island Creameries Winding-Up.—Notice is given in the Gazette that Mr. Justice Murphy has fixed September 5 at 10.30 o'clock in the forenoon, at Chambers in the Courthouse, Bastion street, Victoria, British Columbia, as the time and place for the appointment of an official liquidator of the Island Creameries.

Reinforced Concrete Sluices.—Tenders are being invited in the B. C. Gazette for the construction of five reinforced concrete sluices as follows: One, 4 gates, in Maple Ridge District, near the mouth of the Lillooet River; one, 2 gates, in Coquitlam District, near the mouth of Pitt River; one, 2 gates, in Pitt Meadows District, Tract No. 1, near junction of N. and S. Lillooet; one, 2 gates, in Pitt Meadows District, Tract No. 2, near the mouth of the Lillooet River.

Injunction Granted.—An injunction was granted yesterday to be operative till Thursday, when arguments may be heard, to restrain A. Payne, owner of portion of the property at Humpback reservoir, from preventing the Westhollow Lumber Company's men from working on the land, till the arbitration proceedings to acquire the land have been completed, and the price of the land fixed.

HOW TO AVOID PAYING TAXES.
It is surprising sometimes to find what a large portion of an estate disappears through a variety of agencies such as succession duties, probate fees, taxes, executor's fees, agent's commissions, solicitor's expenses, etc. The beneficiaries under a will frequently find their legacies impaired in this way, thus falling short of their expectations. Most men like to make a sure and certain provision for their wives and families, but there is really only one method to accomplish that end. By a policy of insurance you can secure a positive guarantee that your wife and children will receive the full face of the policy. There will be no deductions for succession duties, probate fees, commissions, legal charges or anything else. Moreover, you can add \$10,000 to your estate by the investment of \$41 quarterly (age 25) in the Mutual Life of Canada. It is positive—the best investment you can make for your family. Get the rates of the Mutual Life of Canada. R. L. Drury, Local Manager, and Fred M. McCreedy, Special Agent; Offices, 918 Government street.

TWENTY-FIVE YEARS AGO TO-DAY

REV. HUGH JOHNSTON'S Victoria Times, August 23, 1887.
Rev. Hugh Johnston's letters to the Mail, descriptive of this city are generally favorable. We make the following excerpt: "The city of Victoria has nearly trebled its population, and every industry is bright and encouraging. I am surprised at the advance made since I was last here. The tone of morals on this coast is decidedly low. Drinking, gambling, infidelity, profanity and licentiousness abound. The building committee went out to the site of the new Jubilee hospital to-day to inspect the ground and decide on the location of the building, preparatory to advertising for plans.
On Sunday the round-trip ticket to Vancouver is \$3 and on other days it is \$5 to Vancouver and New Westminster. The Colonist again deceived the public this morning in announcing the round-trip ticket is \$1.50.
Mr. Joseph Spratt is reported to be very ill to-day.
Mr. W. H. Ellis, of the Colonist, with his bride, returned from a two weeks' trip, extending as far as Yellowstone park.
Jacob Gaudaur has challenged John Teemer to row, a three-mile race for the championship and \$1,000 aside.
A royal Siamese party will reach Victoria this evening by the Yosemite, en route for the Orient by the Parthia on Thursday. The party embraces twenty-two, some of whose names are unpronounceable. Prince Devawongse, chief of the party, is half brother to the King of Siam, and minister of foreign affairs. He has the king's four sons with him. They are Prince Kitiva, Prince Rabi, Prince Praite and Prince Chirar. Suites of rooms have been secured for them at the Drifard.

Mr. Beasley Away.—The superintendent of the E. & N. railway, H. E. Beasley, is at present on a visit to Campbell river. He will be absent from Victoria until Monday next.
Sale of Liquor.—In the provincial police court this afternoon before Magistrate Simpson, Mrs. Mary Simpson is charged with having sold liquor in quantities of more than one bottle at one time. The accused is licensee of the Coach and Horses hotel situated on the Esquimalt road.
Court House Repairs.—Since the vacation commenced the court house has been undergoing extensive repairs. County court and chambers have been held in the appeal court room, as the county court and assize rooms are having concrete floors substituted for wood.

One Discharged, One Guilty.—Judge Lampan this morning sentenced a man named Covill to serve six months' imprisonment for stealing an engine from a motor launch in the inner harbor. Another man named Fennett was discharged as his honor held there was no evidence to show his guilt.
Building Permits.—Building permits have been granted as follows this morning: F. F. Hedges, five-roomed house on Third street, costing \$2,100, to be built by Frank Willis; W. T. Drysdale, house on North Park street, costing \$2,000; William Merrill, for a stable on Belmont avenue, and Alexander Ingram for a five-roomed house on the corner of George and Olive street, costing \$2,500.

To Analyze Opium.—For the purpose of having opium, an exhibit in the case, analyzed, a charge against a Chinese of smoking the stuff was adjourned in the police court to-day until to-morrow. The prosecution was not prepared to go on when J. C. McIntosh, appearing for the defence, raised the point that the evidence of Detectives Murray and Handley did not prove that the contents of the tin was opium. Both detectives were sure of it.

COURT OF REVISION.
Victoria West Assessment Case Being Heard This Afternoon.
This afternoon the court of revision will meet at 3.30 to deal with the perplexing problem of the Victoria West arbitration cases, the assessment upon which is threatened to be upset through the application of E. M. Johnston for a client owning property on the Esquimalt road.
Probably, however, if the city assesses itself as owner of the Victoria West fire hall on Catherine street, the court will content itself with accepting the figures as they appear, and make a ruling accordingly. This is the outcome of the completion of the work by Mr. Harris authorized under the Official Map act dealing with the West district.

COMPANIES INCORPORATED.
Announcement of New Concerns in the Provincial Gazette.
The following companies have been incorporated: Barker Drug Co.; Canada Realty Syndicates Ltd.; Christian Literature Depot, Ltd.; Coquitlam Shipbuilding & Marine Railway Company, Ltd.; Custodians, Ltd.; Georgian Loan & Investment Company, Ltd.; Harbor City Electric Company, Ltd.; Newport News Publishing Company, Ltd.; S. W. Forsyth & Company, Ltd.; Slavonia-Canadian Club; Ucluelet Rural Telephone Company, Ltd.; Universal Motor Transfer Co., Ltd.

NEW APPOINTMENTS.
Directors for 1913 Gazetted—Mining Recorders Appointed.
David Jones, of Van Anda, J. P., to be a deputy recorder for the Nanaimo mining division with sub-recording office at Van Anda, Texas Island.
William Garnet Anderson, of the city of Vancouver, barrister-at-law, to be a notary public.
John William Bolden, Francis William Vincent, and Henry Callow to be official members of the board of directors of the Provincial Royal Jubilee hospital for the twelve months ending the 31st day of June, 1913.
Allan Peter Grant, of the city of Vancouver, to be mining recorder for the Vancouver mining division, and a clerk in the office of the gold commissioner for the said mining division.
Israel Isidore Rubinstein, of the city of Vancouver, barrister-at-law, to be a commissioner for taking affidavits within the province of British Columbia.

W. C. T. U. PICNIC.
Enjoyable Outing at the Gorge Yesterday—Preparations for the Exhibition.
The annual summer picnic and outing of the W. C. T. U. which was held yesterday afternoon at the Japanese tea gardens at the Gorge, was highly successful, the members rallying in good numbers, and the business meeting which was held before tea being well-attended. Two visitors who attended added interest to the proceedings, these being Mrs. Cleave, president of the W. C. T. U. at Taranaki, New Zealand, and Mrs. Poddar, of London, England, who, as a member of the British Women's Temperance Union, spoke a few words of greeting to the association, the chair throughout the proceedings being taken by the vice-president, Mrs. Frank Andrews. The principal item of business discussed was in connection with the preparations for the agricultural fair which is being held next month at the Exhibition grounds, and at which the W. C. T. U. has usually undertaken a large part of the work. No definite plans, however, were formulated, decision being deferred until the next meeting on September 4.

DULY INCORPORATED.
Victoria Progressive Club Officially Begins Its Career.
The Victoria Progressive Club has been incorporated, notice of incorporation appearing in yesterday's Gazette. The purposes of the society as set forth in the declaration for incorporation are:
(a) To initiate, encourage, and support projects intended for the moral and temporal advancement of conditions of life and the general betterment and welfare of the citizens of Vancouver island;
(b) To conduct a general publicity campaign and to advertise the natural resources and commercial, agricultural, shipping, and industrial advantages of its cities, towns and communities;
(c) To promote and encourage the construction of good roads and thoroughfares throughout Vancouver island, and the beautifying of its cities;
(d) To provide entertainment, attractions and recreations for the promotion of the aforesaid purposes;
(e) To acquire and take by purchase, donation, devise or otherwise, and hold for the use of the members of the society all kinds of personal and real property in and on Vancouver island, and the same or any part thereof from time to time to sell, or exchange, mortgage, lease, let, or otherwise dispose of, and with the proceeds arising therefrom to acquire other lands, tenements, hereditaments, and other property, either real or personal;
(f) To co-operate with other organizations having objects similar to those of this society.

3. The names of first directors of the society are: Walter W. Bass, of Victoria, British Columbia; John Mowat, of Victoria, British Columbia; Laughlin D. McLean, of Victoria, British Columbia; Herbert N. Wayne, of Victoria, British Columbia; James L. Fitzmaurice, of Victoria, British Columbia, who shall hold office until the first annual meeting of the society.

QUALITY BACKS UP EVERY SINGLE DOLLAR YOU INVEST IN FURNITURE AND HOUSE FURNISHINGS AT THIS STORE

Every dollar you spend for merchandise should come back to you full 100 cents worth of real, true value. Only QUALITY goods will bring you this return, such goods as you are assured at this store. ONE HUNDRED CENTS worth of real value always at this store. Money spent here is always money well invested.

Warm Weather Furniture---Items You Should Have During the Summer Time

Make some selections of Summer Furniture and Furnishing necessities for your proper comfort during these hot days. No other store is so well equipped to fill your wants as this one. That may seem a broad statement, but it's true, and a visit will prove what we claim. We want you to come and inspect our offerings in Summer Furniture and Furnishings. You'll be surprised and pleased at the completeness of our stocks and the fairness of our pricings.

Dainty Summer Floor Coverings

WE HAVE A SPLENDID STOCK

A great many people prefer China to Japan Matting as a summer floor covering, and they have much to commend them. Cool and pleasing in their dainty patterns, and clean looking, they make an excellent floor covering for the summer season, and they are low in price, too.

We have some very attractive patterns for this summer, and if you are contemplating the purchase of some matting, or are looking for a suitable summer floor covering, don't fail to see these. Prices start from, per yard, 25c.

HERE IS THE IDEAL SUMMER FURNITURE

Sea Grass and Rattan Chairs, Rockers and Tables
Superior Quality

There is no more inviting furniture for the summer than the Sea Grass and Rattan we are showing. Delightfully cool and inviting and most artistic—it is furniture suitable for either outdoor or indoor use. We have a broad variety of designs suitable for verandahs or lawns—use chairs, tables, etc., that you'll be pleased to place in your parlor after the summer season has gone. And the prices are just as attractive as the styles.

See These on Our Fourth Floor

Come in and let us show you some smart designs. Come and try the comfort of these chairs; come and secure one for your home. You'll never regret the purchase.

All Prices From \$9.00 To \$4.00

Hammocks From \$2.00

What about a Hammock for the summer camp?

Don't you think you would appreciate a nice one? Certainly you would, and there's no reason why you shouldn't enjoy the comforts of one of these.

There's a big choice of styles here, and there's a price that will suit you, too, for we have them priced from, each, \$2.00. Baby Hammocks at \$1.50.

ORIOLE GO-CARTS

A combination Go-Cart, High Chair, Jumper and Bassinet. See these on our balcony. Same as picture. From.....\$12.00

New Folding Sulkies From \$5.50

PROMOTE MASTERS IN AUSTRALIAN SERVICE

Capt. Gibb for Niagara, Capt. Morrisby on Makura and Capt. Phillips on Marama

MAY AGAIN TAKE OUT WHEAT FOR ENGLAND

British Ship Celticburn Coming to Coast With General Cargo From Hamburg

Information has been received here to the effect that a general move of the captains in the employ of the Union Steamship Company, of New Zealand, so far as the Canadian-Australian line is concerned, will follow the appearance of the new liner Niagara, which was launched at Clydebank last Saturday and christened by Mrs. R. J. Borden, wife of the premier of Canada. Upon the return of the Makura to this port next trip, John Gibb will leave the vessel and proceed to Scotland to stand by the Niagara. Shipping men will be glad to know that Capt. Morrisby, who now commands the Marama will be given the position of master of the Makura, and that Capt. J. D. S. Phillips, of the Zealandia, will move up to the skipper's cabin on the Marama. Capt. Morrisby will come north from the Antipodes on the Makura next trip, and when Capt. Gibb relinquishes command of the vessel at Vancouver he will take charge of the Canadian-Australian service for a number of years, and are well-known both in Victoria and Vancouver. It is a source of gratification to shipping men to know that their faithful services have been handsomely rewarded by the officials of the large steamship concern. The Niagara will take the May sailing from Sydney, relieving the steamship Zealandia, which is to return to the Australia coast service, in a few days to replenish her fresh water supply, which, owing to the long passage she was making, was almost run out. Although she was the first of the grain fleet to leave the Sound she was the last to arrive in the United Kingdom. The big square rigger Dirigo, which arrived in Seattle July 26 with a cargo of coal from Baltimore, has been chartered by Gilvin & Byre, of San Francisco, to load a cargo of barley on the Sound for New York. A rate of \$7 per short ton has been obtained by her owners. The vessel has finished discharging the bunkers of the Pacific Coast Coal Company.

The Niagara will take the May sailing from Sydney, relieving the steamship Zealandia, which is to return to the Australia coast service, in a few days to replenish her fresh water supply, which, owing to the long passage she was making, was almost run out. Although she was the first of the grain fleet to leave the Sound she was the last to arrive in the United Kingdom. The big square rigger Dirigo, which arrived in Seattle July 26 with a cargo of coal from Baltimore, has been chartered by Gilvin & Byre, of San Francisco, to load a cargo of barley on the Sound for New York. A rate of \$7 per short ton has been obtained by her owners. The vessel has finished discharging the bunkers of the Pacific Coast Coal Company.

HEAD LIGHTS

Bound for Skagway the C. P. R. steamer Princess May, Capt. McLeod, will leave port to-night. She is taking out a large list of passengers and considerable freight.

This morning the G. T. P. steamer Prince George, Capt. McKenzie, left Prince Rupert for Victoria. She will dock here on Sunday morning.

An order-in-council has been passed at Ottawa releasing the Gloucester fishing schooner Hattie "C" which was seized at Barrington, N. S., for violating the fishing regulations. The offense consisted in buying ice without a license and in view of it being a minor one the vessel is released on payment of a fine of \$100 and costs.

Practically every British shipbuilder will be busy until 1914. Therefore it is not surprising that with such a demand for tonnage high prices are being quoted.

SHIPPING INTELLIGENCE

ENGINEER FOUND GUILTY.
Seattle, Aug. 23.—Edward G. Triplett, chief engineer of the steamship Slouk, which collided with the steamer Camano at Everett last week, which sunk two smaller vessels and put out of commission a larger one, was found guilty of negligence in connection with the accident, and his license suspended for ninety days by federal inspectors. According to the evidence taken before the inspectors, Triplett had interpreted the signals from the Slouk incorrectly, and had transmitted them to a subordinate running the engine, who was being "broken in." Triplett was held responsible for the acts of his inferior.

The height in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

NEWS OF THE SEVEN SEAS

WEST COAST LIGHTS TO BE ATTENDED TO FROM SAN FRANCISCO

Quadra and Leebro Both to Be Dispatched Shortly—Diaphone on Lightship

With all the aids to navigation in northern waters in perfect order, the lighthouses having been supplied with oil and stores sufficient to last for six months, and the beacons and whistling buoys recharged and repainted, the marine and fisheries department is devoting its attention to the west coast of Vancouver Island. The steamer Leebro, Capt. Hunter, under charter to the department, which is expected back in port to-morrow, and the Quadra, Capt. Macpherson, which will arrive on Monday, will both be sent to the west coast with stores and supplies for the lighthouses between here and Cape Scott.

The marine department has decided to paint all the beacons and buoys in British Columbia waters white, instead of red. During her trip in the north the Quadra staff has repainted all the aids there, and when the vessels go to the west the beacons there will also have their color changed. The Cascade is now in the Gulf repainting the buoys and beacons. Mariners say that they can pick up a white object, not only in fine weather, but also in fog, at a greater distance than one painted red. The Sandheads lightship is still in port, and workmen have started installing a diaphone fog alarm on her. It will be several weeks before this work is completed, and she will then be towed back to her old position at the mouth of the Fraser. In the past the lightship has only sounded a bell in foggy weather, and this could not be heard at any great distance. The diaphone, however, will carry for several miles, and will prove an important aid to the masters of the ferry steamer. Following the plan of the department the masts and upperworks of the Sandheads craft are being painted white. Work is progressing favorably on the erection of the new diaphone on Cape Mudge. It will not be long before this fog alarm is in operation. The Leebro has been absent from this port for several months. She has been engaged in carrying material to the Langara Island, where the big first order lighthouse is being constructed.

SALMON PRICES NAMED.

Seattle, Aug. 23.—Unable longer to postpone the naming of prices on the 1912 pack, practically every packer in the Northwest yesterday had put out their new lists. The prices quoted are very much lower than those of last year, and are lower than eastern jobbers expected would be made. With the exception of the price on sockeyes, the new quotations show sharp reductions all around. The sharpest cut was made in the price of pink fish quoted on the new list at 65c. The following prices are announced:
Sockeyes, talls, \$1.95; flats, \$2; halves, \$1.30; Alaska reds, talls, \$1.60; flats, \$1.60; halves, \$1.15; Alaska Kings, same price, \$1.15; flats, \$1.30; halves, 90 cents; Pink, talls, 65 cents; flats, 75 cents; halves, 60 cents; Chum, talls, 62 1/2 cents; halves, 55 1/2 cents.
The little 35-foot schooner-rigged yacht Drift has sailed for San Francisco. She cleared for the south yesterday.

VANCOUVER'S WATERFRONT.

Harold Ready to Put to Sea With Lumber—Record Catch of Halibut During 24 Hours.

Vancouver, Aug. 23.—Bringing a small consignment of cement for the R. V. Winch Company, Ltd., the steamer Melville Dollar arrived at 8 a. m. this morning from San Francisco via Victoria, at which port she discharged a cement shipment. She is docked at the Winch wharf and completed discharging this afternoon.

After being anchored in the stream since August 13, the British full-rigged ship Wiscombe Park will come alongside the Winch dock this afternoon to discharge the cement cargo she brought from Rochester, Eng. Capt. Griffiths, Wales, to-night, and Capt. McLaughlin is now in command.

On Sunday the British barque Harold, Capt. Charlton, will sail for Capetown with a cargo of 1,164,779 feet of lumber loaded at Hastings mill, and the ship moved into the stream yesterday, and is now awaiting stores, a crew and a tug.

Shipments of Halibut during the last 24 hours totalled 369,000 pounds; The Manhattan, of the New England Fish Company, arrived last night with 160,000 pounds, and the Flamingo, of the Canadian Fishing Company, arrived this morning with 200,000 pounds. The Celestial Empire, also of the Canadian Fishing Company, is looked for to-morrow.

The steamer Queen Amelle, Captain McKay, will get away to-night for Nanaimo after discharging a New York steel cargo here.

IKALIS SINKS THE DOVE.

Propeller of Frigate Off Side of Schooner Open—Drifting Off Tatoosh.

The American fishing schooner Dove was run into off Tatoosh yesterday morning by the British steamship Ikalis and is now supposed to be floating a derelict. When the Ikalis was making her way into the Straits she sighted the Dove flying distress signals, the crew of the fisherman having hoisted them owing to the breaking down of the engine. Capt. Clarkson immediately altered his vessel down and ultimately succeeded in bearing down on the schooner. When passing very close a line was thrown to the men aboard the Dove and made fast. One of the ropes fouled the propeller and it drew the craft in close. The revolving blades struck the side of the Dove and she started to fill. Capt. Weaver and Engineer McMaster, who formed the crew of the schooner, were hauled aboard and the Ikalis proceeded on her way to Nanaimo. She put the men off here and they were taken to Seattle.

PANAMA MARU IN TROUBLE.

May Be Heavily Fined for Violating American Laws at Port Townsend.

Port Townsend, Wash., Aug. 23.—The Japanese steamer Panama Maru arrived here Wednesday night from Yokohama via Victoria, with some explanation to do to the customs officials for proceeding from this port to Tacoma without having her hatch sealed or taking on board a customs officer and also for proceeding without being bonded by immigration officers.

The Panama Maru left Victoria Wednesday night at 8 o'clock. The quarantine officer boarded her at the British Columbia city, inspecting the passengers and crew while the vessel was crossing the Straits, and gave her pratique. Collector Harper has telegraphed to Tacoma for an explanation, upon which the extent of the penalty for her violation will depend.

Society Brand Clothes are Recognized

as the Most Stylish and Finely Tailored Clothes for Young Men and Men Who Stay Young

Canadian young men have been wanting to wear SOCIETY BRAND CLOTHES for years.

The demand was so insistent that the makers of SOCIETY BRAND CLOTHES decided to make these clothes in Canada.

We ask you as sole agents in Victoria to call and see these famous clothes before buying your fall suit or overcoat.

FALL HATS

We're as well up in the Hat business as we are in the Clothing trade.

HARD HATS, \$3.00 to \$6.00
SOFT HATS, \$2.00 to \$12.00

Choice Shirts

There are many new fall arrivals in our Shirt stock. The man who wants distinctive styles, can now revel in the picking of choice patterns.

NECKWEAR
Our new Neckwear display shows some of the handsomest conceits in neck dressing we have seen.
SILK KNITTED TIES favored for Fall 75c to \$3.00

CHILDREN'S GALA AT GORGE BEACH

Annual Event Will Be Unusually Attractive—Tug of War and Tilting

- San St. Clair's annual children's water carnival will be held at the Gorge beach to-morrow afternoon...

- 22. Consolation, boys under 14.
23. Consolation, boys over 14.
24. Small boys, 40-yard swim.

Mr. Robertson and Mrs. Falkner in the mixed doubles. Mr. Garrett and Miss Dordwell won their match against Mr. Eberts and Mrs. C. Baker.

BARNARD CUP BOWLING

Three Vancouver Rinks Coming Over to Play at Beacon Hill.
The following players will represent the Beacon Hill Club:

- 1. Boys' swimming race, under 14, 40 yards.
2. Girls' swimming race, under 14, 40 yards.

CHAMPIONS PLAY HAWKS TO-MORROW

A baseball game will be played at the Royal Athletic Park to-morrow afternoon between the Beacon Hills, champions of the city, and the Hawks.

HANDICAP TENNIS

Yesterday's play in the Victoria lawn tennis club's handicap tourney resulted as follows: In the ladies' doubles Mrs. Robertson and Mrs. C. Baker beat Mrs. T. H. Beemings and Miss Cameron.

CANADIAN POOL EXPERT BLOWS IN

Ed. Dowd, Title Holder of Dominion, Will Play Here All Next Week

Edward Dowd, present holder of the pool championship of Canada, blew into town a few days ago from Seattle, and has been engaged by the management of the Broad street pool and billiard parlors to play a series of exhibition matches.

Dowd will play at the Broad street parlors all this coming week; afterwards on evenings, and he wants it understood that nobody is barred. The afternoon games start sharp at 2.30.

REMARKABLE RESULTS IN YESTERDAY'S GAMES

Batting Record Broken by Peers of Vancouver—Great Bowling Performance by Curgenvén

Table: MERITORIOUS PERFORMANCES. Batting. F. J. Peers, Vancouver v. Garrison. 200 runs.

Table: MERITORIOUS PERFORMANCES. Bowling. Curgenvén, Cowichan v. Portland. 7 for 8 runs.

The most interesting day's play of the tournament was witnessed yesterday and as a result it is very possible that the association will find themselves confronted by an "impasse" for three teams in Division A are now tied in points.

Yesterday also saw magnificent batting and bowling displays by Peers of Vancouver, and Curgenvén of Cowichan yesterday, the former making 200 runs and remaining undefeated, the latter taking 7 wickets for 8 runs.

Table: Peers' Double Century. Peers dominated the situation yesterday at the Garrison ground.

Garrison made a poor showing with the bat, onlyillingworth and MacRoberts alone reaching double figures.

Two unexpected results yesterday were the victories of University Masters and Esquimalt over Burrard and Albion, respectively.

Table: VANCOUVER v. GARRISON. Vancouver—1st Innings. F. J. Peers, not out. 200 runs.

Table: GARRISON—1st Innings. Capt. Foulkes, st. Peel, b. Peters. 0 runs.

Table: ALBION v. ESQUIMALT. Albion—1st Innings. H. A. Ismay, b. Welch. 3 runs.

Table: ESQUIMALT—1st Innings. S. C. Thomson, c. Clegg, b. E. W. Ismay. 0 runs.

Table: VICTORIA v. VICTORIA. Saanich—1st Innings. H. J. Horton, b. Goward. 37 runs.

Table: BURRARD v. BURRARD. Burrard—1st Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: PORTLAND v. COWICHAN. Portland—1st Innings. L. Tarilton, b. Brooke-Smith. 3 runs.

Table: PORTLAND v. COWICHAN. Portland—2nd Innings. L. Tarilton, b. Brooke-Smith. 19 runs.

Table: PORTLAND v. COWICHAN. Portland—3rd Innings. L. Tarilton, b. Brooke-Smith. 12 runs.

Table: PORTLAND v. COWICHAN. Portland—4th Innings. L. Tarilton, b. Brooke-Smith. 10 runs.

Table: PORTLAND v. COWICHAN. Portland—5th Innings. L. Tarilton, b. Brooke-Smith. 12 runs.

Table: BURRARD v. BURRARD. Burrard—2nd Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

match by two wickets late in the afternoon. Portland collapsed badly in their second venture. McKillop and Tarilton got into double figures, but the remainder fell for a matter of 13 runs.

Table: PORTLAND v. COWICHAN. Portland—1st Innings. L. Tarilton, b. Brooke-Smith. 3 runs.

Table: PORTLAND v. COWICHAN. Portland—2nd Innings. L. Tarilton, b. Brooke-Smith. 19 runs.

Table: PORTLAND v. COWICHAN. Portland—3rd Innings. L. Tarilton, b. Brooke-Smith. 12 runs.

Table: PORTLAND v. COWICHAN. Portland—4th Innings. L. Tarilton, b. Brooke-Smith. 10 runs.

Table: PORTLAND v. COWICHAN. Portland—5th Innings. L. Tarilton, b. Brooke-Smith. 12 runs.

Table: BURRARD v. BURRARD. Burrard—1st Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—2nd Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—3rd Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—4th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—5th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—6th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—7th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—8th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—9th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—10th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—11th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

Table: BURRARD v. BURRARD. Burrard—12th Innings. F. Marshall, c. Nicholson, b. Hudson. 3 runs.

A Terrible Tale

Ten below zero, roads ice-covered, horses down, traffic stopped, house sold as charity. Father angry, Mother despairing, children crying, no dinner—only misery.

Why? No Coal

It's your own fault too. Why didn't you order in the summer-time, when there was no rush, and delivery was certain?

The annual regatta dance of the James Bay Athletic Association will be held at the club rooms on Saturday evening, August 24. As there will be no invitations issued, and only a limited number of tickets will be obtainable, club members or friends wishing to attend are requested to reserve their tickets immediately from any of the committee who are in charge of the

dance. Dancing will be held from 8:30 until midnight and Miss Thain's well-known orchestra will supply the music. The committee is composed of Harry Shuce, Leo Sweeney, A. Jeffs, D. Davies, C. Brown, G. Y. Simpson, W. Day and W. N. Kennedy.

A quiet wedding took place yesterday at Christ church cathedral, the principals being Mr. George V. O. Bulkeley, of the naval architectural firm of Morris, Bulkeley & Halliday, son of Rev. and Mrs. Owen Bulkeley, of South Hill, Vancouver, and a great-nephew of the late Bishop George Hills, of Victoria, B. C., and Miss John M. Walker, third daughter of Mrs. F. G. Walker, of Victoria, and a granddaughter of Lady Crease, of "Pentirew," Victoria. Only the relations and intimate friends of the bride and bridegroom were present at the cathedral, where the service was taken by the Venerable Archdeacon Scriven. Afterwards all were entertained to afternoon tea by the mother of the bride at "Kashiyama," Wilmot Place, Oak Bay, Victoria.

The Evening Chit-Chat By Ruth Cameron

Listen.
No, I am not going to tell you anything startling. That's just the topic of my remarks.

How few people ever willingly listen to all the course of their lives! And yet how much can be accomplished by clever listening at the right time! When you don't know what to say, don't say it. Don't stammer in banal common-places or tactless "breaks," just for the sake of talking. Simply close your lips, open your ears, look wise, and—Listen.

Then you will see the reputation of being tremendously reserved and of having literally unspeakable stores of wisdom hidden away in your mind. Again, when anyone says something which you do not understand, do not be too prompt to display your ignorance by asking for explanations. Instead, draw him on, make him talk some more on this subject, and—Listen.

Very soon he will explain himself, and you will not have had to betray your ignorance.

Somebody has said, "If you cannot make a woman love you, fill her full of self love and all that runs over will be yours." In like manner, if you want to make anyone, man or woman, enamored of your wit and intelligence, fill them full to overflowing of admiration for their own cleverness, and all the good feeling that runs over will be yours. And the best way to do this is, of course, to get them talking on some congenial subject, and then just—Listen.

When you are made a party to a quarrel against your will—I take it for granted that you wouldn't enter one any other way—don't think of the most cutting things you can say to wound your opponent. There is a better weapon than that ready made to your hand. Just keep control of yourself, look loftily amused if you can manage

WHAT COMMITTEE TRIED TO COMPLETE

DETAILS OF THE APPROPRIATION

Was There Sabotage in Use of Air-Compressors Last Month?

The report of May 10, on the sewer situation at that time, proposed that the total sum of \$229,475 should be allocated to certain work, but in the sum reported apparently no provision was made for the loss on discounting debentures, as nothing along that line is stated in its clauses. The city was bound to put up the \$65,000 promised to Oak Bay, and then follow sums of \$67,475 for the northeast sewer, \$47,000 for the northwest sewer, \$15,000 for extension of main sewers and \$30,000 for the St. Charles street sewer drain. The report also made provision for pumps for the Gorge road and Burdett, for charging up the rock compressors at \$7 a day to local improvement work which was not recommended, the appointment of Mr. Yarwood, of the Yates street pumping station, to be in charge of sewer pumping. The council has not yet been placed in possession of information which would show exactly where the money spent since that date has gone, the schedule attached to the report detailing the lengths of sewer and surface drains laid on each street, but they are not grouped according to the several systems now under construction. Apparently as soon as the \$30,000 is spent on the work authorized last Wednesday, the main sewer system will close down so far as construction is concerned, the department confining itself to maintenance. Of course there will be no interruption in the way of laterals, which are laid as a local improvement under the usual clauses which recur the city when an assessment is made.

Some information which will be welcome when the committee of inquiry gets down to work next week will be the cost of boring rock by hand and with the compressors, and also the care of city apparatus on the works. It is a significant fact that the very week the city compressors went out of business during July, Naylor Bros. had trouble with their own compressor at Bold Point. These compressors are so delicately adjusted that a trifle will put them out of operation.

Except on the streets where sewers have been laid, and then paving followed, it is not expected that the work done can be of immediate advantage this year, as only portions of the trunk sewers have been completed in accordance with engineering procedure where work is opened up in different places.

GROGERS-ANNUAL PICNIC.

Enjoyable Day Spent in Open Air at Goldstream.

Store doors were closed yesterday in the grocery trade and the fraternity to the number of over one thousand people went to Goldstream for the annual outing and picnic. Camps were made by the streams and also the vicinity of the Goldstream hotel where sports, races, dancing and many other amusements were indulged in. The wholesalers played a football match with the retailers, the latter eleven being defeated by three goals to one after a good game. Many entries were on hand for each of the foot races and some keen contests were witnessed by the hundreds of onlookers there.

Three special trains took the people to the picnic resort, and each train was filled with the picnicers, many families being made up. At night there was dancing, which was kept up until the last of the three specials returned to the city at midnight. The prize list is as follows:

- 1-Football-Wholesale vs. Retail. 1st prize, Wholesalers.
- 2-Baseball Match, picked teams-S. Nason's team winners.
- 3-Girls' race, 5 years and under-1. Gladys Hutchinson; 2. Muriel Dugg; 3. Alice Snell.
- 4-Boys' race, 5 years and under-1. Robby Cox; 2. W. Gellins, Jr.; 3. Ernest Peden.
- 5-Girls' race, 8 years and under-1. Minnie Cox; 2. Violet Hastings; 3. Gladys Hutchinson.
- 6-Boys' race, 8 years and under-1. James Farrell; 2. Albert Ewsey; 3. Arthur Plows.
- 7-Girls' race, over 8 and under 12-

- Prizes will be distributed from Duncan's Warehouse, 535 Yates street, from this morning until Tuesday evening, August 27. All prizes must be claimed and taken away by the time specified, if not, prizes will be forfeited.

DID NOT CREATE DISSATISFACTION

FRIENDS OF INDIANS AND LAND TITLES

Rev. Mr. O'Meara Says Society Has Sought to Allay Uneasiness

"Undoubtedly there is great uneasiness based upon widespread dissatisfaction among the Indians of the province, but it is distinctly incorrect that the friends of the Indians have done anything in any way to create dissatisfaction. The very opposite is the fact in the highest degree. We have, from the first, sought to allay uneasiness by assuring the Indians that British justice would be done for them. The greatest success in our record has been our success in keeping the Indians quiet, and we have been able to do this by inducing them to act along peaceable and constitutional lines."

In the foregoing remarks, Rev. A. E. O'Meara, of the Friends of the Indians, denied the suggestion in an article in the Times and Vancouver Advocate that the society had accentuated the uneasiness among the Indians in the matter of their land titles.

"Our object from the first," he said, "has been to allay uneasiness, and we have actually prevented bloodshed in some parts of the province. Another thing I wish to say is that the Indians have not made the claim that they own the whole province. They claim tribal rights in respect of all territory occupied by their ancestors, and upon that basis they are more and more strenuously declaring that they should be dealt with as Indians have been dealt with in most of the other parts of the Dominion-in accordance with British principles and Canadian practice. The friends of the Indians have not passed upon the merits of the Indians' claims as an organization; they simply say that those claims should be adjudicated upon."

PINK CARNATIONS.

Floral Emblem Selected for Visit of Flying Legion To-morrow-Cars Wanted on Wednesday.

The Flying Legion will arrive in the city from San Francisco at noon tomorrow, and for this occasion the symbolic emblem of Victoria, pink carnations, will be worn. The flowers may be obtained from members of the Victoria Citizens committee at the office of Stuart & Reeves, Fort street, each day during the visit.

The committee asks for the use of automobiles on Wednesday at 8.30 a. m. at the Empress hotel to take the visitors who wish to see the Mahabat drive, returning to the hotel in time for luncheon.

THREE INJURED IN WRECK.

Seattle, Wash., Aug. 22.—Three men were injured and a heavy mountain freight locomotive was hurled into Cedar river when freight train No. 26 of the Milwaukee road ran into a work train of the Columbia & Puget Sound at Cedar Mountain, six miles east of Renton. Engineer J. E. Donovan and Fireman Roy Keeler, of the Milwaukee engine, both jumped and both sustained painful injuries. Brakeman Watson was also slightly injured. All were removed to the Pacific hospital in Seattle.

The rainiest place in England is St. Head, in Westmorland, where the mean annual fall is 75 in., but where, in wet years, there have been measured 200 in. or 27 ft.

GOING TO BALBOA TO RAISE NEWPORT

SALVOR LEAVING HERE WITH SALVAGE EXPERT

Capt. Logan Will Conduct Operations Mail Lifer Sunk by Collapsing of Wharf

To save the big Pacific mail liner Newport, which sank at Balboa, Panama, on Saturday morning last when the wharf at which she was tied collapsed and tumbled on her decks, the steamer Salvor, Capt. Stratford, of the B. C. Salvage Company, will leave Esquimalt to-night at midnight. Capt. W. H. Logan, of the London Salvage Company, is going south on the vessel to conduct the salvage operations. He was unable to say how long the Salvor would be absent from this port, but it is understood that she will take between two and three months to complete the work.

To-day the Salvor was provisioned for her long trip to the south seas, and her bunkers were filled to their capacity with coal. It will take her some time to run down to Balboa. She will take several big pumps and a complete wrecking outfit. The B. C. Salvage Company is the only concern on the Pacific Coast which is capable of undertaking such a task as that of floating the Newport. There are no salvage plants at Esquimalt, and the owners of the vessel had to look to Victoria for assistance. At first the officials of the salvage company did not wish to send the Salvor south as it was so far away from home.

There is not the slightest doubt that the Salvor will be successful in floating the Newport. The wrecked vessel will be pumped out and it is possible that the Salvor may have to tow her north to San Francisco. The completion of this task will add to the enviable reputation which the B. C. Salvage Company has already attained.

It will be remembered that the Newport was lying alongside the government wharf at Balboa, after having taken on a full cargo of general merchandise for San Francisco. At about 2 o'clock in the morning, while the crew and passengers were asleep, there was a roar and a crash, and the great shed over the dock tottered and then fell toward the side where the steamer lay moored. The thousands of tons of wreckage slid across the bow of the Newport, and immediately the vessel began to settle in the water. All aboard rushed to the decks and managed to reach the wharf in safety. Within a short space of time, the Newport sank, her keel resting on a muddy bottom in 35 feet of water. Only her deck is above the surface.

The Newport is an iron vessel, built at Chester, Pa., in 1880, of 2,735 tons register.

DISTINGUISHED MEN WILL OCCUPY PULPITS

Dr. Munson Hill Will Preach at First Congregational Church

Victoria is to be favored with preachers of exceptional ability on Sunday. There are, however, one or two disappointments. Bishop Nichols, of California, who was to have preached at the evening service at Christ Church Cathedral, is unfortunately prevented by illness from accompanying the Flying Legion, and there is some doubt at the time of writing whether Father Bernard Vaughan will be in the city to-morrow to fill the long-standing engagement to preach at St. Andrew's Cathedral. However, it is indicated that Dr. Edward Munson Hill, of Montreal, the well-known scholar and preacher, will arrive to-morrow afternoon, and will preach at the service at the First Congregational church on Sunday. Dr. McCrossan, of Minneapolis, is due at the First Presbyterian church also for Sunday.

In the morning at Christ Church Cathedral, Rev. Dr. J. W. Clappett will be the preacher. The reverend gentleman enjoys a wide reputation as an eloquent speaker.

Dr. Munson Hill is one of the leading Congregationalists in Canada. He taught for some years in the High school and colleges and in 1882 became pastor of Calvary church, Montreal, where he remained till 1901. Since that time he has been president of the Congregational College of Canada, and served a term as chairman of the Congregational Union in 1898. He is now, as senior president of the affiliated theological colleges of Montreal, acting as their Dean.

The Salvation Army has taken the Empress theatre for the afternoon and evening, Col. Gaskin's visit having been arranged before the death of the founder of the Army. The colonel accordingly will be the principal speaker at the memorial service in the evening, in which he will be assisted by the vicar-general, Major Green, with Mrs. Green, Major Phillips, Staff Captain White, and also the daughter of the colonel, Miss Eva Gaskin. Special music will be rendered.

MORAL EDUCATION CONGRESS.

The Hague, Aug. 22.—Canada, the United States and the principal countries of Europe are represented by delegates at the second international moral education congress, which had its formal opening here yesterday. The sessions will last five or six days and will be addressed by numerous speakers of international prominence.

SPECIALS IN VOILES

Good News for the Economical Two Yards for the Price of One

There are few materials that make such beautiful light Afternoon or Evening Dresses as white Voile. It is so dainty, so pretty in itself, that there are few women it does not become.

We have on hand a large quantity of this material, with black and white, or plain white, satin borders, in 44-inch widths. This is our regular \$1.00 line, and the economic Housewife may feel fortunate in getting the benefit of the extremely low figure we ask.

SPECIAL PRICE 50 CENTS

Also a splendid line of Marquissettes. Regular price \$1.00. SPECIAL PRICE 50¢

Viyella Flannels

A newly arrived shipment of high quality Flannel. Just the material for ladies' suits or children's frocks. Guaranteed not to shrink. In solid colors and stripes.

60c and 75c

Fall Neckwear

The person who said "there's nothing new under the sun" hadn't seen our Maltese Lace Collars and Coat Sets. They are absolutely unique in workmanship and style, and represent the daintiest of the Fall styles. In Dutch and yoke effects.

\$2.50 to \$8.00

Lace Handkerchiefs

We also are stocking a fine line of Lace Handkerchiefs. The beautiful linen and silk Maltese laces of fifty years ago are again swinging into the limelight of fashion, and will be seen more and more frequently from now on.

French Flannels

Another big opportunity for those with an "eye for value." You seldom get so good a chance for so pleasing a purchase. Twilled and plain creme.

50c to \$1.00

Your New Hat

When a woman buys a Hat elsewhere she hopes it will look as good as one of Gordon's. Don't imitate her—you will always be disappointed. None can equal ours in style, fit or appearance.

Early shipment of first Felt Ready-to-Wear in white and pale shades.

\$6 Up

Tasteful Ties

English Knitted Silk Ties, in scarlet, Paddy, champagne, Alice blue, seal brown, black and navy. They are extremely delicate in appearance, and will please the eye as well as the purse.

OBITUARY RECORD

Rev. G. W. Taylor, curator of the biological station, Departure Bay, and well-known both in that district and in Victoria, passed away yesterday afternoon at Nanaimo as the result of a pralytic stroke which he suffered on Monday. The late Mr. Taylor was born in Derby, England, in 1851, and arrived in Canada in 1856, finally settling in Victoria where he studied with the late Bishop Hills, and two years later was ordained into the Anglican church. St. Barnabas church, this city, was built by him, and he also occupied the charge at Cedar Hill for a short period, five years ago, on his resignation from active church work being appointed curator of the biological station at Departure Bay. He is survived by one daughter and three sons.

The death occurred yesterday morning at the Jubilee hospital of Gertrude Bishop, the thirteen-month-old daughter of Mr. and Mrs. Arthur H. Bishop, 138 Princess avenue. The funeral took place at 2 o'clock this afternoon from the B. C. Funeral parlors, Rev. A. J. Stanley Ard officiating.

The funeral of Baby Florence Agnes Davidson took place this afternoon from the residence of her parents, Burnside road, Rev. F. T. Tapscott officiating.

The funeral of Baby Gordon Tranter Nobbs took place at 2.30 this afternoon from the family residence, 598 John street, Rev. Thos. Greene officiating. Interment took place at Haze Bay cemetery, where the child's sister was interred last week.

TAKES DRASTIC ACTION.

French Government Dissolves Teachers' Syndicates Which Advocated Anti-Militarism.

Paris, Aug. 23.—The French government exploded a bombshell in educational circles yesterday by deciding to

dissolve all the teachers' professional syndicates. This action is the direct result of the federation of teachers adopting resolutions approving anti-militarism, the apostles of which have even gone the length of preaching desertion from the army.

Over 2,000,000 volumes are contained in the Library at the British museum.

SCHOONER GOES ASHORE.

Newport, Ore., Aug. 23.—The gasoline schooner Wilhelmina, which left here yesterday with railroad material, was reported to-day to be ashore at the mouth of the Willaw river. The schooner, it was stated, would be a total loss. No lives were lost.

A Clean Sweep of All Lonely SUITS

AT \$15.00

At the close of a prosperous season's trade, we find there are a number of good Suits in stock that we must dispose of in order to make room for our new Fall goods.

These Suits are splendid values at the regular prices from \$20 to \$30, but on Saturday you can take your choice of any suit shown in the Broad street windows at \$15.00.

ARE YOU TAKING POISON?

"In their zeal to do good, physicians have done much harm; they have hurried to the grave many who would have recovered if left to nature. All our drug medicines are poisonous, and as a consequence every dose diminishes the patient's vitality."—Dr. Alonzo Clark, Professor in the New York College of Physicians and Surgeons.

Everybody knows that poison will relieve pain—for a while. That's all it will do, except to wreck the nerves and vitals. A drug without poison won't even relieve.

Temporary relief is not real relief. You want a cure. What's the use of relieving an ailment to-day, if it will return worse than ever to-morrow. That always happens when you take drugs.

The best way to cure any trouble is to help nature cure it. Drugs don't do that. Nature demands power, strength, vitality. You get that from electricity. There's a whole lot to know about applying electricity so that it will cure. We have spent a good many years learning how to use it successfully, and we'll give you the benefit of our knowledge. Our Electro-Vigor is the result of years of study and experiment. It has cured some of the most stubborn cases after drugs and other treatments had failed.

Electro-Vigor is the dry cell battery for saturating the nerves and vitals with life-giving electricity. It builds up vitality and strength in every weakened organ and removes the cause of disease by giving to every ailing part the power to do its work as nature intended.

Electro-Vigor does not shock or blister. Its influence is powerful, yet soothing and pleasant to the nerves. It makes its own electricity, therefore

It is always charged ready for use. It is applied while you sleep.

Dear Sirs:— I haven't taken any drugs now for over six months and I think in sixty or ninety days your Electro-Vigor will complete my cure. This system will do more good in three weeks than drugs will do in three years. Yours,

(Signed) WM. BLACKBURN,
P. O. Box 204, Winnipeg, Man.

THIS IS FREE

Cut out this coupon and bring or mail it to us. We'll give you a beautiful 100-page book, which tells all about the treatment. This book is illustrated with pictures of fully developed men and women, showing how Electro-Vigor is applied, and explains many things you want to know. We'll send the book closely sealed and prepaid free, if you will mail this coupon.

To Architects and Contractors

We have just received a large shipment of sample designs of Teesbeen Fibrous Plaster Decorations, and you are invited to call at our offices and inspect same. It will pay you to do so if you are figuring on any plastic decorating for any building, large or small. A. D. MALET & CO. 493-494 Central Building. Phone 3735. P. O. Drawer 264

NOTED ENGLISH WOMAN IS HERE

THE DAUGHTER OF A GREAT IMPERIALIST

Miss Jessie Allan Spending Few Days in Victoria—Chats Interestingly With the Times

Miss Jessie Allan, a daughter of the late Sir William Allan, until the time of his death in 1903, one of the most picturesque figures in the British House of Commons, is visiting in the city. The daughter of one who was generally known among his political contemporaries as the "Great Imperialist," it is not to be wondered at that she is intensely imperial in her ideas and warmly interested in the political life of her country—an enthusiastic spirit which she inherits doubly through her mother, who was a daughter of Colonel Fraser of the old Highland clan Lovat.

"Sir William Allan, like most of his countrymen, was a man of mechanical inclinations and powerful reasoning faculties, and was one of the most expert engineers and marine engine builders of his time—a fact which may have remotely accounted for his association with the celebrated Navy Bill which was introduced by him in the House after the South African war came to a close. His great speech on this subject was delivered in 1896, and was followed at varying periods by others on the same theme, his daughter in the meantime following the national destinies with keen interest, and making friends of many of the leading diplomats of the time, among whom was the late Sir Henry Campbell-Bannerman, with whom she formed a friendship which, tested by the troublous times of the South African war and the fluctuating fortunes of the Empire, remained unshaken until his death.

She knew the late "C. B." So much has been written of Sir Henry Campbell-Bannerman, of his virtues as a statesman, of his shortcomings as a diplomat—accordingly as whether the biographer was a political friend or foe—that one can say little that is new on the subject of his public career but in her more personal acquaintance Miss Allan came to know a side of the great statesman which was not seen by the public or his purely political acquaintances. Sir Henry was, in Miss Allan's judgment, one of the greatest literateurs and orators of his time, and revealed in his versatile acquaintance with French literature generally, and, more particularly in his love of the delicately subtle and refined philosophy, the gay or tender sentiments expressed in the beautiful sonnets of that romantic literature, a temperament utterly unlike the ponderous unemotionalism so often attributed to the Britisher. There was nothing in modern French poetry with which the great statesman was unfamiliar, and his whole conversation, for those who were fortunate enough to be among his personal friends, was brightened by the flashes of poetic thought, the apt quotations and comparisons, drawn from and inspired by the verses of the sonnet-makers of France.

"Sir Henry Campbell-Bannerman," said Miss Allan yesterday in briefly reviewing the personality of the great political leader who was so long her friend, "was absolutely single-hearted in his political aims and one of the greatest statesmen of his time. Everyone trusted him, whether political friend or opponent. He had the love of every member of his party, and was respected to the last even by his opponents, who treated his opinions with unflinching courtesy. His life was devoted to politics and the amelioration of conditions within the Empire and the nation, and it was the intensity of his sincerity in the fight for what he considered right that he exhausted his energies while he was still at the zenith of his powers."

Canadian Public Men.

Canadian politicians and Canadian men and women in general are very interested in Miss Allan, and her first visit to the Dominion has brought her into contact with much that is representative in the political life of this country. In England she met Premier Borden and was much impressed with his clear and forcible manner of speaking, while at Ottawa and other places she has met several members of his cabinet, all of whom impressed her as being shrewd and clear-headed, and individual potential forces who are doing wonderful things in this "new world." The women, too, who have worked beside them, either as pioneers in the hinterlands of North and West or as the backbone of that social and home-life which is bound in the older cities, where the collegian is trained and the higher intellectual life cultivated, are admirable.

Women and Women's Work.

Women and women's work, however, whether political or domestic, are perhaps the most interesting topic on which one could touch when speaking to one so sympathetic as Miss Allan, as their ineffective struggles, their wonderful adaptability when really pushed into unaccustomed positions, their resourcefulness or their weaknesses—it matters not which type or social class she is viewing—are all worthy of either sympathy or admiration. Working girls and women generally the Empire over, have so long held, and still hold, the puzzling position of being queen and slave, conqueror and conquered, erring and erred-by, but her position to-day is unique in that it is an attitude of independence and self-reliance which she is assuming. "It will soon be

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

WILSON'S FLY PADS

persistently, this peril will be tremendously reduced.

she remarked, "that women will apologize for not working rather than for working." A personal friend of Lady Aberdeen, she was interested to hear from that pioneer worker among the women of Canada of the great work which is being carried on in the Dominion to-day it may not be an entirely independent observation on the part of the visitor when she says that she believes much of the success of the work to be due to the clever women who have been chosen to carry out the work—women, she says, of profound kindness of heart and possessed of that essential loyalty to their cause, at the same time broad-minded and far-seeing enough to grasp the idea of the possibilities of the future. Both the men and the women have a splendid sort of way of setting up an ideal of their undertakings, and pursuing the achievement in the same spirit.

"Mme. Marcelle."

It is owing to her interest in women's work that Miss Jessie Allan is visiting here at the present time, as she has for some time been debating the practicability of opening an establishment out here—modelled on the lines of that which she conducts at present, under the name of "Mme. Marcelle," in Savile Row, London. This famous establishment, similar in its essentials to the older establishments of Worth and Paquin, was one of the earlier enterprises undertaken by her on her return from South Africa, where she remained throughout the unhappy war which broke out in 1899 and woke England from her false feeling of security. Those were days of travail for Britain, and anyone who passed through the next few years

anywhere near the seat of the outbreak reaped a life's experience of what real war means in suffering and agonizing suspense. Knowing both of the chiefs, Miss Allan was kept closely in touch with every movement during the war, and saw enough to teach her that, modern or not, war was a cruel and terrible thing. It was in South Africa that she opened her first business establishment, partly owing to her realization of the financial possibilities, partly through the opportunity which it afforded her to give occupation to some of the women whom she had seen on all sides in need of work.

Her reminiscences of the period are vivid impressions of the men, whether besieged or besiegers, who carried the fighting from one point to another, of days when the cannon roared a few miles distant, but the significance of which was so little known to the people that they had oftentimes to wait for the coming of the English papers before learning the immediate whereabouts of the fray; of the scourge of disease which broke out from time to time and carried off so many of England's strong men; of the press censorship, both amusing and maddening in its stringency; of the intrigues, the bravery, the cowardice, or the splendid heroism that was seen there, and of which the world too lightly speaks.

May Open Business in Canada.

England now, as everyone who has been there these last two years may have seen, or may have learned through their English papers, is suffering from such internal unrest that business is disorganized and incomes unsettled, and "Mme. Marcelle" considers that she may perhaps in this land help both herself and those whom she employs better than in the old land. It is with the intention, finally, of looking over the ground and investigating the possibilities of obtaining capable assistants in this country that she is visiting the West—the results of which the public will no doubt hear when she has concluded her inspection.

The total tonnage of all ships in the United Kingdom in 1900 was 2,171,224 as against 2,474,709 in 1901, and 3,525,555 in 1910.

SHERIFF'S SALE.

Under and by virtue of a Warrant of Execution issued out of the County Court, holden at Victoria, and to be directed, I have seized and taken possession of the goods and chattels of the Pier Island Syndicate, Ltd., consisting of 3 cows, 2 heifers, 1 horse, 1 mare, 24 chickens, ploughs, mowers, horse rakes, set of barrows, 2 sets harness, 3 barrows, seed drill, shovels, pickaxes, hoes, 4 crosscut saws, quantity of other farming implements, clover seed, timothy seed, 2 ranges and stove pipe, washing machine, quantity of paint, white lead, house finishing lumber and one saw, all of which I will offer for sale at public auction at Pier Island on Monday next, August 26th, 1912, on arrival of steamer Joan at Pier Island. MANUAL TRAINING DEPARTMENTS NOT READY

Batavia Teachers in the Schools—Permits for Children Joining Classes

Although arrangements have been made with the Oak Bay municipality for Saanich and Oak Bay schools to have a manual training teacher allotted for the two districts, for the present they will probably continue to send pupils to the North Ward and Central schools, respectively, as the schools are not yet ready to be brought into service.

While not anticipating many changes when the schools reopen on Monday, City Superintendent of Schools E. E. Paul said this morning he was trying to remove the natural prejudice against Batavia teachers, both on the part of other teachers and of the children themselves.

He mentioned there were now over 300 permits for children to join the classes for the first time on Monday. They are distributed as follows: Boys' Central, 32; Girls' Central, 34; North Ward, 42; South Park, 16; George Jay, 26; Sir James Douglas, 41; Victoria West, 19; Kingston street, 19; Bank street, 17; Spring Ridge, 31; Hillside, 15; Rock Bay, 4; and Fisguard (Chinese) 8.

DIES FROM INJURIES

Los Angeles, Cal., Aug. 23.—Jose Armandez, a Mexican, is dead to-day as the result of having tried to relieve an attack of acute stomach trouble by performing an operation upon himself with a butcher knife.

He died at the receiving hospital, where in his death throes he secured a pair of scissors from a nurse and attempted to kill himself to avoid his pain.

EMPERESS SHOW

The Empress Theatre, Mlle. Doodina, who is billed as "The Vision of Loveliness," at the Empress theatre this week, is a noted Parisian beauty who was imported recently by the Sullivan & Considine circuit in her picturesque posing act. Her act is beautiful, the lighting effects being unique.

Robert Rogers and Louise Mackintosh, former legitimate stars, present "The Green Mouse," which is one of the best farces written by the author of "The Climax," and "The Case of Becky," Mr. Edward Locke.

Two clever musicians are Daniels and Conrad, the latter a boy who shows himself to be an adept on the violin. Daniels plays the piano. The couple offer a bright programme with both classical and ragtime selections, and the rendition of "Everybody's Doing It," is especially endorsed.

Una Pantzer, a member of a clever acrobatic family, gives a daring and spectacular wire-walking act. Harry Holden, a bright comedian, and Lucy Harrow, have a good act which they entitle "The Messenger Boy and the Lady." It is full of fun from start to finish. The couple sing, dance and talk, and do all well.

The Allen Players will give only three more performances of "The Squaw Man," including the matinee to-morrow afternoon. The public this week has seen Miss Felton in the smallest part she has taken with the company, for as the Indian woman Nat-U-Ritch, she speaks very few words and relies on her dramatic ability and appearance for the impression she must create with the audience. She is receiving wide praise for her part. Miss Felton is well supported by G. D. Zucco as James Wynnegate, James Mitchell as Henry Kerhill, Mrs. Allen as Lady Kerhill, P. R. Allen as Grouchy and Baby Adelaide as the Indian child, Hal. "The Squaw Man" is attractively staged and has been enjoyed by good audiences during the last four nights.

Orchards cover 250,000 acres of land in Great Britain.

OUTLOOK IS NOT BRIGHT FOR NEW JAIL

Call for Remnants to Go to Sewers Extinguishes Hope to Tackle Question

As far as can be observed there is no intention to push the jail question any more this year, although the council carried a resolution some three weeks ago to refer the matter back for further consideration with the intention of determining if some via media could not be found.

Otherwise the council must let the matter stand till the next January election, for no one seems to be prepared to suggest that by-laws should be submitted in October or November next, after the cold shoulder the ratepayers gave them last November. In that case probably nothing would be done till April or May next, and naturally those people who are directly interested are anxious that the council should not procrastinate, and at any rate after calling for tenders should go ahead with some scheme. However, as every available dollar saved from other appropriations is to be swept into the capacious hole of the sewer fund there is not likely to be much left for any other cause from general revenue, and probably the aldermen will be sorry when for sake of appearances they cut down the rate one mill bet on the dollar.

Some money will now have to be found for decorations for the royal visit, and the emergency fund will have to be used for this purpose, according to the comptroller's remark when the subject of expense was broached the other day. The minimum figure mentioned at the meeting was \$55,000 and there is not much prospect that \$25,000 needed to make up the sum can be found anywhere for a start on the work. The scheme proposed would have caused much trouble to carry out, according to the aldermen on the committee, because the architect was not given a free hand in the matter. Nothing has been decided yet whether any further action will be taken this year.

TO-DAY'S CRICKET

Good Start by University. This match began at 10.30 this morning on the Jubilee hospital grounds, in brilliant weather. Champain and Sparks opened for the visitors to the bowling of L. York and Gallihier. Sparks was clean bowled by L. York with a ball that broke across and took his off stump. Champain played peevishly for over half an hour, and then got his leg in front of a straight one, and had to go. Wenman was bowled

by an express, and then Hincks and Ackroyd carried the score along merrily. The century was hoisted just on 12 o'clock.

Table with cricket scores: University Masters, F. A. Sparks, b L. York... 8, F. H. B. Champain, l.b.w., b Gallihier... 33, J. Wenman, b Gallihier... 9, A. E. Ackroyd, not out... 44, R. N. Hincks, not out... 26, Extras... 15, Total (for 3 wickets)... 124

H. A. Ismay Bowling Well. There was a good attendance of spectators at Beacon Hill to view the match between the Albion and Burrard C. C.

The latter won the toss, and elected to bat, sending in R. J. Becham and D. S. Wood to a plumb wicket. The partnership was profitable, both men playing with confidence. Becham fell to Jepson, and D. S. Wood to Ismay, with precisely the same score affixed to each name.

E. F. Smith did not stay very long. H. A. Ismay was bowling particularly well at this point, and after sending down a maiden, took Smith's wicket with a beautiful ball that broke across quite a foot.

Table with cricket scores: Burrard C. C., R. J. Becham, b H. Jepson... 28, D. S. Wood, c Wilson, b H. Ismay... 23, E. F. Smith, b H. A. Ismay... 11, Beaton, not out... 3, L. T. Dweley, not out... 9, Extras... 9, Total (for 3 wickets)... 79

The Garrison eleven put up a remarkably good performance this morning in dismissing a strong Cowichan eleven for 121 runs. J. F. Murphy was the only batsman on the side to do himself anything like justice. His 41 was a well-played contribution. Scores: Cowichan, Drake... 2, Taylor... 18, V. V. Murphy... 2, Martin... 8, Brooke-Smith... 8, Hobday... 8, Hayward... 41, Buddock... 19, Sullivan... 12, Hilton... 6, Extras... 7, Total... 121

Table with cricket scores: Later: Garrison 20 for no wickets. Vancouver vs. Oak Bay. The Oak Bay bowlers had a bad time of it this morning. Vancouver batted first and piled on the runs from the start. By twelve o'clock the hundred had been passed and at lunch only four wickets were down with 150 runs on the board.

Mrs. Dewdney, wife of Hon. Edgar Dewdney, will preside with Mrs. Gillies at the tea tent to-morrow on the Jubilee grounds. It is not as yet known whether or no it will be possible to play the final to-morrow.

PRINCE RUPERT BY-LAWS QUASHED

Were to Raise \$121,000 for Electric Light, Telephone and City Hall

Vancouver, Aug. 23.—Three by-laws which were passed by the voters of Prince Rupert some months ago for the raising of money by debenture issues for the improvement of the electric light and telephone services and for the cost of the new city hall, were quashed by Mr. Justice Murphy in Supreme court chambers. Altogether a total sum of \$121,000 is involved in the quashing of the by-laws.

S. S. Taylor, K. C., acting for John H. Hilditch, made the application for the quashing of the by-laws, and came armed with the necessary affidavits and evidence to support his case, but it was announced that a telegram had been received from City Solicitor Peters, of Prince Rupert, to the effect that the matter would not be contested. The decree nisi which was granted a week ago was accordingly made absolute.

The quashing of the by-laws marks an interesting episode in the financial and municipal history of Prince Rupert, and, according to Mr. Taylor, is the outcome of a fight that has been waged for some months by business men of the northern city against the present civic administration. The Bank of Montreal, which had been making advances to the previous councils against a forthcoming debenture issue, refused to make any more loans for new works. The council then brought forward the three money by-laws to raise \$66,000 for electric light purposes, \$20,000 for telephone extensions and \$35,000 to pay for the new hall which has recently been erected. Opposition was taken to the by-laws which passed by majorities of 3, 4 and 6, after a hot election. Later it was discovered that there were 11 spoiled votes, and it was claimed that if the three-fifths majority was calculated with the 11 spoiled ballots deducted, that the by-laws were negated. Other technical objections were taken on the ground that a secret ballot was not observed and that persons who were not qualified were allowed to vote.

The application to quash the by-laws was made in the name of Ex-Ald. John H. Hilditch, the defeated candidate for mayor. A peculiar result of the quashing of the by-laws is that though the city hall is built and occupied the by-law to raise money for its erection is now quashed.

No house in London is more than two hundred yards from a post office or a pillar box.

SUIT FOR LIBEL

President of Mining Company Brings Action Against Augustus Heinze.

Spokane, Wash., Aug. 23.—Augustus Heinze, of Butte and New York, was sued yesterday for \$100,000 for libel by Edward J. Carter, of Spokane. Carter alleges he was libelled in a statement sent by Heinze to their stock holders of the Stewart Mining Company, of which he is president, declaring that Carter had demanded 25,000 shares of the stock of the company—and had threatened to sue Heinze if he refused. Carter recently began suit here against Heinze and other officers of the company for an accounting.

DETECTIVE'S HOME LOOTED.

New York, Aug. 23.—It became known to-day that the up-town home of William J. Flynn, head of the United States secret service, was robbed this week during his absence in Maine. So far as the police have been able to learn, everything of value in the three-story house was secured. When a policeman noticed that a window at the back of the house was opened and made an investigation he found the rooms in disorder, bureau ransacked, cupboards turned topsy-turvy and even the pantry, sideboard and cellar looted. Mr. Flynn is now on his way back to try to assist the aldermanic graft inquiry committee. He is expected to arrive to-morrow.

DESPONDENT WOMAN'S CRIME.

New York, Aug. 23.—Despondent because of illness and the fact that one of her seven children was a sufferer from infantile paralysis, Mrs. Louis Nunn, 36 years old, wife of a wheelwright, killed her crippled boy and tried to kill herself and her four weeks-old baby by gas asphyxiation last night. Neighbors discovered the distracted woman's act in time to save her life and that of the baby, but the crippled boy, a lad of four, was taken from her arms dead.

BOY KILLED.

Hamilton, Ont., Aug. 23.—Wilfrid Sheen, aged seven, of 67 Inebury street, was instantly killed yesterday on York street. The boy became wedged in between a motor car and a jump cart. He was struck by the former and knocked under the wheels of the wagon, which went over his head.

AVIATOR CRUSHED TO DEATH.

Lamar, Colo., Aug. 22.—Caught by a light breeze as it turned a corner of a grand stand crowded with spectators, the aeroplane, Mathewson Flyer, driven by George Thompson, of Denver, turned over at the race track and fell to the ground, crushing out Thompson's life. The accident happened at a height of about 200 feet and Thompson, it seemed, attempted to save himself by jumping. The heavy machine overtook him and bore him to the earth. When picked up Thompson was still alive, but died soon after at a hospital. Thompson had just begun a series of ex-

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 23.—5 a. m.—Pressure has decreased over the North Pacific slope, but, with the exception of showers at Eureka, Cal., fair weather is very general. East of the Rockies the pressure is low throughout the prairie provinces and showery weather prevails in all districts.

Forecast.

For 24 hours ending 5 p. m. Saturday. Victoria and vicinity—Light to moderate winds; generally fair and warm. Lower Mainland—Light to moderate winds, generally fair and warm. Reports at 5 a. m. Victoria—Barometer, 29.92; temperature, 52; minimum, 52; wind, calm; weather, clear. Vancouver—Barometer, 29.92; temperature, 52; minimum, 52; wind, calm; weather, clear. Kamloops—Barometer, 29.74; temperature, 62; minimum, 60; wind, calm; weather, part cloudy. Edmonton—Barometer, 29.74; temperature, 52; minimum, 52; wind, 4 miles W.; rain, .46; weather, cloudy. Winnipeg—Barometer, 29.80; temperature, 48; minimum, 44; wind, 8 miles S. E.; rain, .01; weather, rain.

Victoria Daily Weather.

Observations taken 5 a. m., noon and 5 p. m., Thursday: Temperature: Highest... 53, Lowest... 50, Average... 54, Bright sunshine, 9 hours 42 minutes. General state of weather, fine.

HEALTH OF CITY.

Bears Favorable Comparison With Other Cities of Similar Population.

The health of the city of Victoria need not unduly concern those unhappy pessimists who dread the water, see hidden terrors in the milk, and go home with an uneasy anticipation of being a subject for the undertaker at an early date.

Even statistics will fail to cheer some Mark Tapleys, and to them the eloquent appeal of figures will not dispel the gloom of expectations of epidemics and general destruction all round.

However, Dr. G. A. B. Hall, medical officer of health, estimating the population of the city at 45,000, in which he includes all the suburbs whose deceased persons are buried in the city cemeteries, and whose invalids pass away in the city hospitals, has arrived at a death rate of 1.6 per thousand. There were 291 deaths in the city last year. The city of Edmonton, with 49,000, has a death rate of 2.10, and London, Ontario, with 50,000 of population, has a death rate of 13.46. Hence Victoria may be regarded as a healthy city.

SOUTH PARK WINS ANOTHER HONOR
DIPLOMA FOR NEEDLEWORK EXHIBIT

Five Girls Obtain Individual Awards—Display at Toronto From Schools

Welcome news for the needlework classes at South Park school is brought from Vancouver with the return of Miss Boorman, supervisor of needlework under the Victoria board, South Park, the exhibit of which was selected as the best in the city, and, therefore, chosen to represent Victoria schools, won the diploma. Five of the six girls who individually competed for prizes received firsts, a very creditable showing.

In addition to this special exhibit at Hastings Park, which was much admired by visitors from the mainland as well as local people at the exhibition which closed on Tuesday, the board has a general exhibit at the Canadian National Exhibition at Toronto, representing all the schools, including domestic science, needlework, drawing, writing and similar classes of school study. This exhibit is graded according to classes, and, as indicated, is thoroughly comprehensive.

If it should be back in time, the display will be placed on view at the provincial exhibition here at the end of next month, but as the interval between the close of the Toronto show and the commencement here of Victoria's exhibition is brief, it is not certain whether this proposal can be carried into effect.

The honor won by South Park, which recently retained the Lieutenant-Governor's shield for singing, will be a source of considerable gratification to the teachers and pupils of that school.

PROTECTION AGAINST TYPHOID.

Acting Secretary of Provincial Board of Health Issues Bulletin.

The following bulletin has been issued by Dr. W. Bapty, acting secretary of the provincial board of health, under the head of protection against typhoid fever.

"Owing to the prevalence of typhoid fever in many parts of the Dominion of Canada, the attention of the general public is called to the protection afforded to this disease by the inoculation of typhoid vaccine.

"The vaccine may be injected by a doctor, or in the case of a doctor not being at hand, a trained nurse could carry out the procedure. The first injection of vaccine, amounting to a few drops of a sterile liquid introduced under the skin, is followed in ten days' time by a larger injection, and for greater security a third may be given ten days after the second.

"A few hours after the first injection a little headache and slight malaise may be experienced, with tenderness about the point of inoculation. This is seldom sufficient to cause a man to stop his work, as by the next morning he usually feels as well as usual. After the second and third injections no reaction is produced; the person seldom experiencing any discomfort whatever.

"It is significant that many large employers of labor have gone into this subject deeply, with gratifying results, properly inoculated practically none have taken typhoid within a year, and protection is probably afforded for a much longer period.

"This method should appeal especially to friendly societies and labor unions who pay benefits to their sick members.

"Typhoid vaccine may be obtained on application to the provincial board of health, or from drug stores."

BEECHAM'S PILLS
Sold everywhere, in boxes, 25c.

Something to look for!

ALWAYS look for the label in a Semi-ready suit—the Semi-ready trade mark and price mark.

We print this "Beware Advt" because so many people are victimized by unscrupulous dealers who say "Yes" when you ask, "Is it Semi-ready?"

In looking for high class garments this mark shows you that you are getting what you want.

Semi-ready clothes are sold at the same price here as everywhere in Canada—neither a two-faced nor a two-priced policy. You may rely upon getting an actual dollar's worth for every dollar marked on the Semi-ready label. It is your protection against the excited higher costs that many merchants think they must have in these days of aviating living expenses.

DEATH ACCIDENTAL BY FALL FROM CAR

Body of Signalman Jackson Interred To-day With Full Naval Honors at Esquimalt

After hearing the evidence of witnesses regarding the death of Signalman Frank Alexander Jackson, of the H. M. S. Albatross, who fell from an Esquimalt car in the vicinity of the E. & N. railway crossing on Esquimalt road late Wednesday night, a coroner's jury yesterday afternoon returned a verdict of accidental death. After the accident the man was taken at once to the St. Joseph's hospital, where he died three hours later.

MAKE YOUR OWN HAIR TONIC

A SPECIALIST'S ADVICE.
In a recent issue the New York Herald published a special article on the care of the hair, in which was given the formula for a home-made Hair Tonic, which was highly recommended for its remarkable hair-growing properties, as well as for stopping falling hair, revitalizing the hair roots, destroying the dandruff germ and restoring gray hair to its natural color.

This article was of special interest to me, as the formula was one which I myself have prescribed in countless cases with most astonishing results. I remember one case in particular in which I prescribed it for a man who had been bald for many years and in less than two months after he began its use his head was completely covered with a lustrant growth of rich, glossy hair, thus proving that hair can be made to grow on a bald head, notwithstanding the opinion of many persons to the contrary.

For the benefit of those who have not seen it before, I give the formula herewith: 6 ounces of Bay Rum, 2 ounces Lavona de Composee, one-half ounce Menthol Crystals. Dissolve the Crystals in the Bay Rum and then add the Lavona de Composee; shake thoroughly and apply night and morning to the roots of the hair, rubbing into the scalp with the fingers tips. This preparation contains no coloring matter, but restores gray hair to its natural color by its action on the hair roots. If you desire it perfumed, add one teaspoonful of To-Kalon Perfume, which combines perfectly with the other ingredients and imparts a most pleasing scent.

The speed at which the car was going when it was at the curve where the accident happened, was given by the motorman, George Howden, as between six and seven miles an hour. He had reduced from ten miles on coming to the curve. The conductor, C. J. Newton, said he knew of no rules prohibiting passengers riding on the rear of the car, and his statement was supported by the company's manager, A. T. Goward, who added that there was a notice at the rear of the car to the effect that passengers riding on the rear platform did so at their own risk. Jackson was a single man, and was born in London. He is survived by a sister residing at Saskatoon.

PAVING SITUATION.
Will Be Discussed at Streets Committee This Afternoon.

At the meeting of the streets committee this afternoon it is likely that the situation with reference to the paving situation will be referred to, in view of the continued delay on water pipe. There is about enough work to carry the two paving companies on for some nine or ten days, but beyond that time, should the politician not arrive, the situation will necessitate the closing down of operations. Had not the council let additional contracts to both companies on schedule prices, they would probably be idle now, as streets already let have been tied up from various causes without any fault of the engineering department.

SHORT TERM LOANS.
Comptroller Has Not Given Matter Consideration Yet.

When Comptroller Raymur's opinion was sought on the proposal to issue short term certificates locally, inviting subscriptions from citizens, he remarked this morning that it would require careful consideration.

In the United States they had what they called "Over the Counter" issues for \$50 and \$100, which might be taken up by men with small amounts to invest, and he noticed that the last stock issued on behalf of the city in the Old Country ranged from \$50 to \$500. Any proposal would have to be carefully considered before adopted, though, for short term loans he believed there would be plenty of demand.

"COMPETITION"
"Open to the People of Vancouver Island"

The Executive Committee of the VICTORIA PROGRESSIVE CLUB invites the people of Vancouver Island to compete in the creation of a

"SLOGAN"
suitable for the City of Victoria. Slogans used by other cities WILL NOT DO

"The Germ of originality breeds success!"
The person sending in the slogan which the club decides to adopt will be presented with a

LADY'S OR GENTLEMAN'S SOLID GOLD WATCH

The following conditions must be observed:—
1. Not more than five words to be used, other things being equal preference to be given to the shorter slogan.
2. No one candidate to send more than two slogans.
3. The slogan must bear the name and full address of the sender legibly written.

4. The competition will close on August 31st, but letters bearing that post mark will be opened.
5. Letters will be opened in the order in which they arrive, and if two persons submit the winning slogan the prize will be given to the person whose letter was first opened.
6. The envelopes must be addressed to the secretary and be endorsed

"Slogan Guessing Competition."
7. The competition is open to all residents on Vancouver Island.
8. The Executive Committee will be the final judge.

"LITERARY COMPETITION"

The Executive Committee will also give a prize of a beautiful Solid Silver Toilet Set to the lady or gentleman who sends to the secretary before August 31st the best essay on the future of Victoria. The rules for the slogan guessing competition hold good for this one, except rules 1, 2 and 4.

The essay is to consist of not more than three hundred words. ONE ESSAY ONLY to be sent by each competitor. Endorse your essay wrapper

"LITERARY COMPETITION."
For further particulars apply to the Secretary, Suite 12, McGregor Block, View Street, City.

ON SENTRY DUTY.
Owner of Property at Humpback Reported on Guard With a Gun.

The story comes to the city hall that one holder of property at Humpback required to be expropriated for Sooke Lake has taken unusual efforts to guard his property which the city requires for waterworks purposes, by standing, or rather sitting, watch with a gun, and having his food brought from the homestead. The sentry duty has not proved a comfortable way of spending life when the elements were un hospitable, and negotiations are pending for a conclusion of the state of war.

The old corn-cake was toothsome and rare,
As our forefathers were wont to boast;
But good as it was it can't compare
With the Toasties made by Post.

V. AND S. TANGLE FAR FROM UNRAVELLED

Decision as to Blanchard Avenue Obstruction Expected Soon

The tangled question which has involved so many problems in connection with the V. & S. railway and the Victoria Terminal railway depot here, does not seem any nearer settlement than it did months ago.

The whole matter is so thoroughly mixed up between the government, the city, and the railway company, to say nothing of the bondholders, the holders of the stock, and others interested, that there is really no one in the city who understands the whole situation, and the files covering the matter are most voluminous. A history might be written of the protracted negotiations, and no one is any nearer a solution. L. T. Gilman, executive assistant to the G. N. R., the owners of the running franchise, has promised to visit here, but so far the meeting has not taken place. Correspondence, however, has been frequently exchanged in the last few weeks.

A decision on the Blanchard street obstruction is expected from the provincial minister of railways, almost immediately, and unless some arrangement is reached, the city will proceed with its action commenced last spring as soon as the courts resume after vacation. This action is at least definitely decided upon, but beyond this fact nothing final has been determined upon. A settlement is badly needed, but so far a solution appears as far away as ever. F. A. McDiarmid is acting for the city in the matter.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

SWIMMING BATHS.

To the Editor.—I am sure the article regarding municipal salt water swimming baths published in yesterday's edition will be read with interest by many women in Victoria.

In a city where there are so many women from the Old Country who have been accustomed to the plunge bath, with plenty of accommodation in the way of bath houses, the prospect of a public bath must make a strong appeal. Because of the constant demand along this line, the Young Women's Christian Association has long felt and recognized this need, although it has not been able in any way to meet it.

If we stop to think for a moment we shall be convinced that it is essential for women and girls to know how to

swim, not only for the preservation of their own lives and the rescue of those in danger, but that they may not (as they often do) endanger the lives of others.

Men can make far more use of our beaches than can women. The early morning plunge, which many men are able to take, is not possible for most women because of household duties. Then, during the day there are sometimes objectionable people about, so that it is not always wise for women and girls to go into the water. Not unfrequently mothers are obliged to take their children from the beach because of the improper language of loiterers. These undesirable frequent the shore when there are few men about. If children are to have the full benefit of our beautiful waterfront, Victoria will be obliged in the near future to supervise her beaches as well as her playgrounds.

This matter of supervision is one of the strong points in favor of a municipally owned and conducted public bath. More and more is this principle of supervision coming into the training of children. The large sums of money being spent by cities, not only for the purchase and maintenance of playgrounds, but also for training men and women to supervise them, is a proof of this.

I agree with Mr. Leo that swimming ought to be on the school curriculum. This could easily be arranged if the swimming baths were owned by the city.

What should be the aim of our schools? Not simply to impart knowledge, but to develop and train the child that he may go on and make the most of life, both as an individual and as a citizen of the world. Judged by this standard does swimming deserve a place on the school curriculum?

We all recognize the physical benefits of swimming, but are we as much alive to the mental benefits to be derived? It not only teaches the child to think quickly and clearly, but develops perseverance, courage and above all self-control, which is, perhaps, the most important factor in leading life to "sovereign power."

ETHEL B. SCALES.
Victoria, August 22.

GROWTH OF I. W. W.

To the Editor.—I seldom attempt writing especially when my letter stands a chance of appearing in print. But having two reasons in store I shall attempt this letter. First, because the editor states that he writes the editorial appearing in to-night's paper because of his receiving a letter from someone. My curiosity is aroused. Let us have the contents of this letter in full.

Second, Mr. E. A. King, also Mr. J. Knox, writes very interesting letters or the right to speak on the street. I am a qualified elector and a British subject residing in the city of Victoria. For a long time, during which time I have observed carefully the action of the city government in their attempt at crushing with the iron hand the right to speak on the street in the city of Victoria. Only a year ago the socialists were holding street meetings, and for this crime (?) they were thrown into jail, thrown into jail because they persisted in moving along the lines of British tradition, and I may say, one of the oldest traditions of the British race was wrested from the wage workers of this city by force.

The Socialist party of Canada is the

most radical organization in town, but with all of their radicalism they always remained within the realms of legality in their attempts at righting the wrongs that exist in society to-day. The Conservative party claims that they stand for fair play, yet they discriminate against their opponents both in the industrial and the political field. Being unable to meet the argument of their opponents in a logical manner, they acted just the same as the old backwoodman who was approached by the philosopher. Being unable to argue because he didn't know anything, he resorted to force, and gave the man a licking, and made him see that he was best man. Might is right may be the rule of the Conservative party, but it is not the logic of those who stand for freedom of press, freedom of speech, and the right to enjoy life, liberty and happiness.

The product of all this misrule has commenced to give expression to itself in the form of the I. W. W., an organization that is more aggressive and more revolutionary than anything that has hitherto existed in this city. Go and ask the average wage worker about the I. W. W., and see where his sentiments lie. With this little experience you will be prepared to judge for yourself whether this organization has made headway or not. I liken the I. W. W. unto the early Christian religion, before the year 300, and during which time they endured the severest kinds of persecution, but it was upon these persecutions that the early Christian religion thrived and gathered strength till at last they became the dominant power, both politically and religiously. One year ago to-day you could count all of the I. W. W. men on your fingers. Now I learn from the secretary of one of the local unions that they have over eight hundred members in good standing. All this, I claim, is a product of one year's aggressive rule by the Conservative party carried out by, and based upon the theory of might is right, but I also claim that it is not in line with the logic of those who stand for British fair play in fact.

A VOTER.

Victoria, August 21.

GENERAL BOOTH.

To the Editor.—As one of your readers, permit me to express my appreciation of the too brief, but excellent article in the Times of Wednesday, on the late General Booth, founder and leader of that world-wide and world-famed organization, the Salvation Army. In times when so many papers devote whole pages to "sport," or sometimes more questionable matters, it is refreshing to find a leading journal give worthy prominence to what is ennobling and uplifting to the community. Is this not a field in which more of our newspapers could find wide room for the "public good"? And would it not be well if readers too would more often express their appreciation when it is done?

WILL MOTOR FROM OCEAN TO OCEAN

WELL-KNOWN WRITER TO START ON SATURDAY

From Halifax, To Demonstrate the Feasibility of a Canadian Highway

H. Maxwell Clark, of the Canadian Highway Association, arrived this morning on a flying visit to Victoria, and announces that the annual convention of the organization will take place in Winnipeg on October 7, 8 and 9, and that one of the absorbing subjects which will come up for discussion at that time will be that relating to the matter of federal aids to the provinces for the purpose of road-building, the decision in connection with which matter will no doubt have an important influence on the next session in Ottawa.

Delegates are being sent by the boards of trade from all parts of the country between here and Fort William, so that the gathering promises to be representative in a wider sense even than the diverse membership of the association, who accept its terms, and it is anticipated that the discussions will be interesting and effective in results.

Next Saturday Thomas W. Wilby, the well known scientist and writer, will start from Halifax on a trip which he hopes to conclude about six weeks hence on the western coast of Vancouver Island. In making this cross-Canada trip, Mr. Wilby aims to demonstrate the feasibility of a Canadian highway. He is travelling under the auspices of the association, and flying the pennant of the organization on his car, the trip being with the simple motive of proving the practicability of the route which has been tentatively marked out as the Canadian highway. If Mr. Wilby is successful in his attempt the proposed route will be followed in building the road now under construction.

For some months past the officers of the Canadian Highway Association have been preparing maps, plans, and charts for the energetic pathfinder, and a chain of pilots has been provided across the continent, those in eastern Canada, as far as the Great Lakes, having been selected by different automobile clubs in these districts, while west of this point the men have been appointed by the Canadian Highway Association.

The guides are usually officers of the association, who accompany the pathfinder for at least one hundred miles of his journey, after which they resign in favor of their successor, so that Mr. Wilby does not anticipate taking more than six weeks to cross the continent. There are, of course, great difficulties to be met with on the journey, and for some time it seemed that the trip would have to be abandoned on account of difficulties in the way. Before leaving Halifax Mr. Wilby is to be presented with a number of letters which will be delivered en route, these being greetings from the city of Halifax to representative men further west. One of these letters is to His Royal Highness the Duke of Connaught, patron, and another to W. J. Kerr, president of the Canadian Highway Association. It is probable that the Governor-General of Canada will also forward a letter of greeting to Mr. Kerr, as he has always shown the keenest interest in the Canadian highway.

Victor Parker, editor of the Modern Power Magazine, of Winnipeg, and Mayor Fleming, of Brandon, are giving Mr. Wilby valuable assistance by piloting him part of the way, while members of the Medicine Hat Automobile Club will take charge of the traveller in Alberta, and take him as far as the British Columbia boundary, where he will be met by Guy Lowenberg. By him Mr. Wilby will be taken as far as Castlegar, where John D. Anderson, another vice-president, will pilot the car to Grand Forks, when Mr. Wilby will be taken under the protection of Jeff Davis. The most difficult part of the trip will be that from Princeton, where packhouses will be waiting, and where grave doubts are entertained that the car will never be able to reach the summit of the divide and cross the bogs and swamp land which are there. This accomplished, however, the tourist will go on to Chilliwack with W. J. Kerr, the party stopping long enough at New Westminster when they arrive there to partake of the luncheon which is to be given in Mr. Wilby's honor.

From that point no further difficulties are contemplated. The car being used is of Canadian make, and has been placed at his disposal by the makers. The feasibility of the Canadian highway is the one important point to be borne in mind by Mr. Wilby and those associated with him on this trip, it being his intention to keep the personal equation entirely in the background, although this will be somewhat difficult, as in addition to being a motorist and engineer of no mean ability, he has some literary distinction through his numerous articles contributed to magazines and periodicals, and has already contracted with one English magazine and a syndicate of English newspapers for stories to be supplied by him for a period extending over three months.

H. Maxwell Clark is intensely interested in the road, and its effects on the country generally, and is supporting an idea whereby the Canadian Highway Association should be cleared of all stumps and roots for the full width of 55 feet, that part not actually occupied by the road to be planted with clover for the purpose of keeping down the weeds and holding the soil together.

THE DEATH OF GENERAL BOOTH.
 That heart, which beat for all, beats now no more;
 Those lips, are still that scattered blessing wide
 As leaves are scattered in the autumn-tide.
 And glad as they, that tint the landscape o'er.
 For he is dead—his spirit soareth free
 From the tired body bent with weight of years.
 And we who live our tribute pay, with tears,
 To that best name, that e'er shall honor be.
 Aye! honor him who gave the worthless worth,
 Who from the flinty rock of lives forever
 Made streams of saving virtue to be born
 And flow in soft refreshing o'er the earth.
 Who, to the crushed of circumstance and crime,
 A father was; whose roof to all distress
 A welcome gave, and fire and food, and
 And songs of Heaven's until their souls beat time.
 He beat his own, his native land, and
 Sought out the distant nations with his love.
 Till far and near to-day his armies move
 To preach of Heaven's and bring it down to men.
 Like Him of old who walked by Galilee,
 Whose matchless love no narrow limits knew,
 Though vast His servant with the Master's view,
 The Master's patient toil and sympathy.
 Full many a patriot's name is found
 Ancher'd
 Upon the grateful heart of his own race;
 But he, we mourn, shall fill an ampler place
 Within the larger heart of all mankind.
 And now, as to the grave his course we bear,
 And from the grave with living feet retire,
 May thoughts of him to high resolve inspire,
 And prompt our hands to service and to prayer.

For though 't may not be ours while travelling here
 To move a world and give it greater worth,
 Yet all that he was to a needy earth
 We each may be to our own narrow sphere.
 May do the work he wrought on lesser scale,
 His message give though but to numbers few.
 That worthy, we our friendship may renew
 In brighter realms beyond this mortal vale.
 For, blessed thought, the Heaven he preached
 The joys he loved to tell are his this time.
 The welcome home, he oft proclaimed with power,
 He hears it now—the Master's glad "Well Done."
DUDLEY H. ANDERSON,
 Victoria, B. C., 1912.

DROPS DEAD IN HOTEL.
 Cranbrook, Aug. 22.—Geoffrey Grimmore, a stranger in the city, suddenly dropped dead at the Cranbrook hotel.

Ladies of Culture and Refinement Use Salvia Hair Tonic. It Makes the Hair Beautiful.
 At last a remedy has been discovered that will positively destroy the Pest Dandruff.
 That Dandruff is caused by germs is accepted by every sensible person.
 Dandruff is the root of all hair evils.
 SALVIA will kill the dandruff germs and remove dandruff in ten days, or money back.
 The manufacturer guarantees it. It will grow hair, stop itching scalp, falling hair, and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.
 SALVIA is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only 50c, at leading druggists everywhere. The word "SALVIA" is on every bottle. Sold at Campbell's Drug Store.

BIRTHDAY CALENDAR

AUG 23

IF THIS IS YOUR BIRTHDAY

Small annoyances will hinder you and require much effort to overcome. The year will not be altogether unfortunate, for later pleasant events will occur and you will meet with valued friends.

Those borne to-day will develop fine characters, but either cannot or will not make a success of business. Their talent lies along literary or dramatic lines.

IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

One of the purest satisfactions is doing good by stealth. Not that it is not also pleasurable to be generous and get thanks for it; but there is a far finer flavor to the kind deed that is never known.

This is the secret treasure of the heart. As the Eastern nabobs had underground chambers where they could go and gloat over their chests of gold, thrust their arms into bags of rubies and let diamonds trickle through their fingers; so all those good turns, we have done to others in secret are our private hoard where we can enjoy the delights of ownership with a good conscience.

Unfortunately society is so constituted that we all have to act with a propriety we do not always feel, and hence we are most of the time oppressed by the knowledge that we are not really as good as people think we are. Hypocrisy is forced upon us to a certain degree.

It is a most excellent antidote for the self-contempt that arises from this, to have always on hand a goodness nobody suspects.

Don't talk of it. Don't tell it. Hold it as the one secret that shall keep you from hating yourself.

Whoever said "Let thine aims be in secret" understood human nature in its highest reaches.

"Let your charitable gifts be anonymous," says Dumas. "These have the double advantage of suppressing at once ingratitude and vanity."

UCLUELET NOTES.

Ucluelet, Aug. 22.—A number of survey camps have been established in this district. Excellent progress is being made by the surveyors on the road from Alberni to Clayoquot and Long Beach, via Ucluelet. The party will soon reach Maggie lake and Barclay Sound. Another party is subdividing some 600 acres of land around the shores of Wreck Bay, with the intention of starting a townsite for a summer resort. The donkey engine on the government road has removed stumps, etc., to East Shore creek, making some five miles of right-of-way from Ucluelet Arm.

Settlers and their families continue to arrive on every steamer.

The cloth made by the ancient Egyptians was so good that though it has been used for thousands of years as wrappings of the mummies it can still be worn. It is composed entirely of linen, the ancient Egyptians considering wool unclean.

Notice to Contractors

Tenders will be received at the office of the Board of School Trustees, on or before Tuesday, August 27th, at 4 o'clock p.m., for the erection and completion of a six room Public School Building to be erected on the corner of Oliver Avenue and Cecelia Road.

Each tender is to be accompanied by a marked cheque payable to the Board of School Trustees for an amount equal to 5 per cent of the total amount of the tender.

The cheque will be returned to the Contractor and also to the unsuccessful tenderers when a contract has been entered into and a satisfactory bond provided.

In the event of the successful tenderer refusing to enter into a contract when called upon so to do the deposit cheque will be forfeited to the Board of School Trustees.

Drawing and specifications may be seen at the office of the undersigned.

The lowest or any tender will not necessarily be accepted.

A separate tender will be required for the heating and ventilating plant.

FARMER'S CREDIT SYSTEMS ABROAD

Development of Agricultural Loan Institutions Throughout Europe

Interest in the subject of rural credits or agricultural finance seems to be on the increase, and is the subject of an editorial in the current number of Bradstreet's review. In its platform adopted at Chicago the Republican National Convention urged an authoritative investigation of agricultural credit societies and the passage of state and federal laws for the establishment and capable supervision of organizations having for their purpose the loaning of funds to farmers. The Democratic platform adopted at Baltimore declared the question of rural credits or agricultural finance to be of equal importance with that of currency reform, and recommended that an investigation of agricultural societies in foreign countries be made so that it might be ascertained whether a system of rural credits suitable to conditions in the United States might be devised. On August 8 Senator Newlands, of Nevada, introduced in the senate a joint resolution inquiring the commission appointed by the Southern Commercial Congress to go abroad for the purpose of investigating rural systems of agricultural finance and involving for the commission the diplomatic consideration of the countries included in its itinerary. The senate adopted this resolution on August 15. Twenty-seven states were represented in the conference held on the subject under the auspices of the Southern Commercial Congress, which held its fourth annual convention in Nashville, Tenn., in April last, and the conference was directed by Mr. David Lubin, the American delegate to the International Institute of Agriculture, who explained the European systems from the publications of the institute. The conference decided that an investigation of those systems should be made by an American commission with a view to the adaptation and adoption of some of their features in the United States.

It is of interest to note in connection with this subject the results of some investigations made by Ambassador Leishman into agricultural credit systems in Germany, which have recently been made public. Germany, it may be said, is regarded as the birthplace of cooperative agricultural credit. The founding of the German system of agricultural cooperative banks is attributed to Friedrich Wilhelm Raiffeisen, burgomaster of Weyerbusch, who was led by the distress of the years 1846 and 1847 to seek a remedy in a system of cooperation for the slight amount of credit obtainable by the small landed proprietors. At Weyerbusch, the first town of which he was appointed burgomaster, and at Hederdorf, to which he was later appointed, he founded the first agricultural cooperative loan banks, which were called after him, and whose establishment was followed by that of many others. Raiffeisen says that while the individual farmer might be too small a factor to command extended credit facilities at good terms, a combination of such farmers would represent a strength with which money lenders

EVERY LOT HAS GOT TO BE SOLD

AT THE

AUCTION SALE PORT ALBERNI LOTS

GO TO THE HIGHEST BIDDER

Enquiries are coming in fast since our announcement yesterday. Taking these enquiries as a criterion, there will be hundreds of eager bidders for these lots. And there is no reason why there should not be, because this property is, without doubt, the most desirable property in or around Port Alberni. It is NOT five miles away from any development, it is INSIDE CITY PROPERTY and constitutes everything that makes a good investment. Whether you are looking for a profitable investment or a homesite, you should attend this sale. Every lot has got to be sold within two days, no matter what the price may be. Bear in mind Port Alberni is not a boom town, its progress is inevitable. Even the timber and coal resources alone could support a population of 80,000 people. Real estate values are increasing daily; people who purchased a few months ago are now reselling at twice the original purchase price.

Call or write for complete literature regarding Port Alberni. Learn the location of the property. Be posted before the sale. Address

Auction Sale Commences at 2 o'clock, August 26th, at Hibben's Old Stand, Corner View and Broad Streets, Victoria

PORT ALBERNI ALREADY HAS:
Two Banks.
Two Hotels.
Two Lumber Industries.
One Sand & Gravel Co.
One Newspaper, and
Thirty-five Prosperous Business Houses.

The secretary of the board of trade is daily receiving a great volume of enquiries from manufacturers and industrial firms seeking desirable sites at Port Alberni.

A prominent contractor predicts the town will treble its present size within 12 months.

would be glad to make terms. For the guidance of those entering into the cooperative associations he laid down three maxims: First, that the members of the association should hold themselves liable to an unlimited extent for the transactions of the society; second, that the association should operate only in a limited field, so that the members would be in effect neighbors, and third, that the management of the business of the society should be done at a minimum cost, most of the members giving their services gratis.

Raiffeisen feared speculative control of the banks, and in order to avoid this and to extend the benefits of the system as widely as possible, he declined to allow the banks to be established with a foundation capital secured by selling shares of capital stock. To provide a working capital for the banks he offered four sources of income, namely (1) deposits on current account, (2) savings deposits, (3) loans from other banks or from private individuals, and (4) the reserve fund made up of earnings of past years. Since the system was first established a law has been passed requiring all cooperative banks to have a foundation capital, and the Raiffeisen banks have complied with this law by selling shares of stock, but limiting their value to a nominal amount and restricting the right of individuals to hold large quantities of the stock.

A further consideration of strength was secured through the establishment of central cooperative banks, one in each province. These were modeled upon the local banks, and the latter, speaking generally, constitute the membership of the central banks. The local banks subscribe the stock in the central banks to form their capital, and their surplus funds are deposited in the central institutions. The latter also secure some money from loans with outside banks and some from loans advanced by two central banks, one at Berlin and one at Darmstadt, which form what might be called the capstones of the system, and are to the central provincial banks what the latter are to the local institutions. The chief function of the central banks is to equalize the credit needs of the institutions immediately subordinate to them. As a general proposition, the local banks have money enough to finance the farmers with all the loans they require, but the distribution of this financial strength is not always

uniform, one bank at times finding itself with a surplus, while another may be in need of money to meet calls made upon it. The surplus of one bank is deposited with the provincial bank and is in turn loaned to a bank or banks requiring additional funds. Surpluses not needed in this way are invested either with one of the two general central banks or in securities.

The banks finance the farmers through two sorts of loans, one on current account and the other for fixed periods. The loans on current account form about one-third of the total, and there is said to be a strong tendency at present to extend this feature, inasmuch as loans on current account form the most convenient kind for the borrowing members and are similar to the loans of banks in cities to mercantile houses. Security is given for the loans in the form of mortgages by the deposit of stock or other securities, and sometimes by mere promises. The Raiffeisen banks were not organized for profit, and therefore none of the profits are distributed in the form of dividends; but while some of the money is expended in the furtherance of public utility projects, the bulk of the profits is carried over into reserve funds. It is a remarkable fact that of the working capital which the banks use to finance the farmers and members, 88.3 per cent. is furnished by the farmers themselves or by the local depositing public, while the banks do their business with a capital which amounts to only 3.8 per cent. of their total funds. Savings deposits form the great bulk of their working capital. Their expenses are small, for the reason that generally only one person is a salaried employee, namely, the secretary, who does the actual executive work. The basis of management for the banks is the general meeting of the members, at which a council of supervision and a committee of management are chosen. In 1909 the average cost of management was only about \$157.12. The business done is, however, large, as may be gathered from the fact that in 1909-10 the rural Raiffeisen banks numbered 15,158, with 1,163,186 members and a total turnover of \$1,061,568,167, while the central banks comprised 38 institutions, with 15,436 members and a total turnover of \$1,567,393,580.

The coal consumption of the world has just about doubled every ten years for the last century.

DISTINCTION OF TONGUES.

Professor Wants "English" Accent Preserved Throughout Overseas Dominions.

New and distinct languages are stated by etymologists to be in the course of formation amongst the Overseas Dominions. At the congress of Imperial Teachers, Professor Stanley Kidd, of South Africa, has just pleaded strongly for some method of rehabilitating the English tongue throughout the Empire.

"Language can be controlled," said an expert in English etymology, "and I agree with Professor Kidd that the time has come for some control to be applied to the Imperial language. There is no doubt that there would be no different national languages in Europe now if the Roman Empire had managed to retain its power through the middle ages, and if it had insisted on keeping the linguistic unity which existed in Europe in the first four centuries A. D. Probably, even about 700 A. D., there were not more audible distinctions between the various sections of the Empire than there are to-day between the Overseas Dominions and the Mother country."

"A far-sighted policy may easily prevent the exaggeration of these present differences into languages unintelligible to Englishmen. Language is emphatically not a national growth and I think unity in language is a benefit which any one can recognize. It will, of course, take centuries for absolute diversity between the speech of the various Overseas Dominions and the Mother country to arise, but the problem must not be neglected, for all that."

"English pronunciation alters by degrees, but not half so fast as the present day as it used to do. On the other hand, the pronunciation employed by citizens of the Overseas Dominions is altering very quickly."

"What, however, is needed is that higher education should be carried out in the Mother country and in the Overseas Dominions in such a way that the same standard of pronunciation is preserved by the educated classes of every part of the empire. Just as the romance languages grew up and left Latin the means of communication for a long time, so languages might grow up in the Overseas Dominions side by side with the standard English language. For this purpose some central body ought to be formed to decide

what pronunciation of English should be preserved, and then the rules so made ought to be taught and applied by the higher educational authorities of each of the Dominions, as well as of the Mother country."

DYNAMITE IN A CHIMNEY.

A man named Patrick Davis, of Loughbrickland, was cleaning a chimney in a house in the village when the soot ignited. Davis suddenly remembered that a contractor to whom he had let the premises had stored dynamite in the house, and he ran into the street. As he did so an explosion occurred, and the roof of the house was blown off. Davis was uninjured, but two of the contractor's workmen who were passing received serious injuries

and were taken to the infirmary in a critical condition.

SURVEYOR'S BODY RECOVERED.

Tacoma, Wash., Aug. 22.—Over more than 24 miles of rough mountain country, through unbroken trails and almost impassable roadways, the remains of Herbert Johnson, a young civil engineer, who was drowned in the Clepus river July 23, will be brought back to Tacoma. Johnson was a member of a survey party in the Cascades and was drowned while at his work. Members of the party searched the swift stream for the body and it was not recovered until last Monday. The work of bringing the remains here will be difficult. Relay

parties will carry them over the trails where horse and waggon cannot go.

RUSHING RAILWAY WORK.

National Transcontinental May Be Through to California in Time to Handle Grain.

Ottawa, Aug. 23.—"We certainly expect to have the National Transcontinental Railway completed to Cochrane in time to help move the western crop," said Major Leonard, chairman of the N. T. R. commission, yesterday. "There are only eighty miles of steel to be completed, and with fair luck we should have this line finished so as to take our share of the grain of the prairie provinces this fall. However, whether our expectations will be fulfilled remains to be seen."

"We have had unexpected delays during the past two weeks. There has been severe weather along the line of the transcontinental, while it is very difficult to secure laborers. The demand for farm hands in the western wheat fields has resulted in many laborers leaving for the harvest. We will certainly have the steel completed some time this fall, but whether in time remains to be seen. It is a rush against time, and the result of this will depend on the labor situation. If the section is completed to Cochrane, it means that instead of one single track east of Fort William there will be two to handle the crop of the West. The transportation facilities will thus be doubled."

DIES AFTER OPERATION.

Death of Wife of Ex-Mayor Hazelet of Cordova.

Cordova, Alaska, Aug. 23.—Mrs. Geo. C. Hazelet, wife of ex-Mayor Hazelet, died here on Wednesday night after an operation. Mrs. Hazelet was prominent in social circles in this section. She leaves a husband and two sons. The body will be taken to David City, Neb.

LINEMAN ELECTROCUTED.

Tacoma, Wash., Aug. 23.—John Nelson, a street railway lineman, was electrocuted yesterday afternoon at Twenty-fifth street and Jefferson avenue, when he placed his hand on a bare feeder wire carrying 500 volts. A pulmotor was used without result in an effort to revive him. His relatives are not known to the company.

NATURAL GAS SYSTEM.

Edmonton, Alta., Aug. 23.—The city is now maturing plans for the installation of a distribution system for artificial gas. The board of trade has passed a resolution urging the city council to take steps to obtain a supply of natural gas, which is believed to be obtainable within easy piping distance of the city.

Financial News

STOCK MARKET

STRONG AT CLOSE

Realizing Sales of Highest Priced Issues Continues—Long Stock Dislodged

(By Courtesy F. W. Stevenson & Co.)
New York, Aug. 23.—The market finally was stronger despite some realizing of the highest priced issues which has been in progress for some days. On the downturns quite a little long stock was dislodged, but the element committed to the side of declining prices made little headway. There was no particular news of an adverse character, but, of course, in view of existing monetary and investment conditions, a general sustained advance can hardly be expected.
It is believed that congress will adjourn at an early date, and that on any further depression in the lower priced issues, such as the copper equipment stocks, steel, Southern railway, and Erie will be purchased for moderate returns.

NARROW RANGE IN WHEAT PRICES

Early Buying Orders Cause Upturn for Time—Outside Trade Light

(By Courtesy F. W. Stevenson & Co.)
Chicago, Aug. 23.—Action in wheat for the day was limited to a 1/2 cent in December and May. Some early buying orders came in to the market after the trade had made some attempt to force a break. The action was a little unexpected and prices had an up-turn for a time. Premiums in the Minneapolis trade were a little better than for a few days past. The north-west confirmed heavy flour—sales at terminal and interior milling points. The volume of outside trade was light. Cables were fairly strong, as wet weather conditions abroad have been somewhat bullish.
There was further sharp advance in cash corn prices to-day. September future corn sold at 74. Cash corn at all outside markets ruled strong. The feeling seems to prevail that there is a dangerously wide difference between December, the month for first new corn deliveries, and the present old cash corn quotations. This is giving the present firmness in the late months.
Some early strength in oats was partly due to the action in corn.

WESTWARD TRIP OF ROYAL PARTY

OFFICIAL ITINERARY HAS BEEN ANNOUNCED

Will Spend Six Days in Victoria Altogether — Large and Distinguished Party

Their Royal Highnesses the Duke and Duchess of Connaught, will spend six days in Victoria altogether next month, according to their itinerary just announced. The trip begins at Toronto on August 28, and the various points of interest in the Canadian west will be visited. At Calgary the royal party will spend two days, and they will reach Banff on September 13 at 4.30 p.m.

Leaving Banff on Monday morning, September 16, the royal train will proceed to Lagan. A full day has to suffice for the beauties of the scenery of the famous lakes in the clouds, and the royal party will proceed to Kamloops at 1.30 a.m. on Tuesday, September 17, where only a brief stop will be made, and the run to the Coast will follow quickly, the party arriving at Vancouver at 3 p.m. on Wednesday, September 18.

The royal party will remain there until Sunday, September 23, and in the interval a huge programme has been prepared for Their Royal Highnesses

by the city of Vancouver, a trip to New Westminster being included for Saturday, and the works of the C. P. R. at Coquitlam will also be visited.

At 1 p.m. on Sunday, September 22, the royal party will embark on the C. P. R. steamer Princess Alice, and a sea trip to the north will commence, the destination being Prince Rupert, arriving at that port on Tuesday about 11 o'clock. Three days will be occupied by the royal party there, and on Thursday, September 26, the return journey will be commenced, taking in Nanaimo on September 27, and after a three hours' stay over the steamer will make for Victoria, arriving there at 6 p.m.

Six Days in Victoria.

The stay at Victoria will occupy six days, an elaborate programme having been provided for the royal party. After that, the special steamer will leave for Vancouver at noon on October 2, arriving at 5 p.m. The return journey will be commenced via the Crow's Nest Pass. After a visit to the Okanagan Valley, Vernon will be reached on Friday morning, the 4th, and, after a brief stay, the royal train will leave for Okanagan Landing. On arrival there, the C. P. R. steamer Okanagan will be in readiness to convey the royal party across the lake to Penticton, arriving there on October 5, on which date the party will visit Sumnerland and Kelowna, returning to Okanagan Landing at 7.45 on Saturday. About three hours later the royal party will leave for Arrowhead, where, on October 6, they will embark on another C. P. R. steamer, the Bonnington, and sail through the Arrow Lakes to Robson and to Nelson, where they will be transferred to the C. P. R. steamer Moyle on October 7, and proceed to Kootenay Landing, with a brief stay at Balfour en route.

They will then proceed eastward. The personnel of the party will be: Field Marshal H. R. H. the Duke of Connaught, H. R. H. the Duchess of Connaught, Miss E. Peily, lady in waiting to H. R. U. S. STATESMAN PASSES THROUGH

SECRETARY OF STATE EN ROUTE TO JAPAN

On Diplomatic Mission and Therefore Not Giving Interviews to Press

The U. S. Secretary of State, Hon. Philander C. Knox, did not stay long in Victoria, and while here seemed anxious to avoid publicity. In fact the American consul, Hon. Abraham Smith, had only a few minutes with the head of the Taft cabinet, the consul, with Colonel Payne, meeting the distinguished visitor as he hurried to join the Princess Charlotte for Seattle yesterday afternoon. On arrival at the Sound the secretary was met by Rear-Admiral Reynolds and officers of the battleship Maryland, on which he will travel to Japan to be the representative of the American nation at the funeral obsequies of the Mikado. The rear-admiral will be the naval representative of the United States on that occasion. The battleship left during the night on her mission to the Orient, and will spend a day at Honolulu, being due at Yokohama on September 10.

Mr. Knox was accompanied by his wife and his secretary. They were in the city less than two hours, and made no official calls. The secretary of state refused to make any statement to the

press, his secretary explaining later that his chief was on a diplomatic mission, and therefore any remarks would be a breach of etiquette. Mr. Knox has taken the Canadian route to avoid display, and he had no desire at the present time to discuss political issues.

The secretary of state looks his age, nearly 60, and his strong features at once indicate a man of strength of character and ability. He is a fitting statesman, successor to Hay and Root, in the most important office in the American cabinet. To Canadians Mr. Knox is chiefly of interest as the representative of the great republic in the reciprocity negotiations last summer, from which the Fielding-Knox agreement emanated, the great measure which would have established free trade in natural products between the two civilized countries of the North American continent. To-day great attention has been given to the department of the secretary of state and its head in connection with the Panama canal bill, and the tolls on non-American shipping.

The secretary of state was attorney-general in the cabinets of Presidents McKinley and Roosevelt, until 1904, when Governor Pennington appointed him to the U. S. Senate for the unexpired term of M. S. Quay, deceased, and in 1905 he was elected for the full term till 1911, but resigned three years ago to become secretary of state. Pittsburgh is his home city, although, of course, now he resides in Washington, D. C.

DIES SUDDENLY.

Vernon, Aug. 22.—D. G. Angus passed away suddenly a few days ago. The young man, who was a member of the staff of the Bank of Montreal, had been operated on at the hospital for appendicitis. Later on an abscess developed, and another operation was performed. From the effects of this he appeared to have recovered, and two days later his temperature was normal, and he was thought to be on the way to a speedy

recovery. As he was taking a bowl of soup, he gasped and fell back, death being practically instantaneous. His death was undoubtedly due to heart failure, as it transpired that he had previously suffered from heart disease. The deceased was about 25 years of age.

Egyptian drainage projects will reclaim 1,000,000 acres of fertile land in delta of Nile. About \$1,000,000 will be expended for drainage, with an equal amount of irrigation.
